The new Toyota Corollas for 1980 offer startling changes. Totally new looks. New space. New performance. It gives you the feeling you've discovered an exciting, new friend.

The wind tunnel testing alone, took 425 hours to produce Corolla's new-aerodynamic shape. (And is it ever slippery looking!)

15 years of people testing have created a whole new sense of space. (The back seat is so big and comfortable—you'll want to go back to double dating again!) The surprising feeling of openness is helped by a lot more head room and 23.2 cubic feet of loading space.

New surprises are everywhere. The space-age dash isn't simply functional—it's gorgeous. While exciting new options include power steering, a sun/moon roof and advanced audio components.

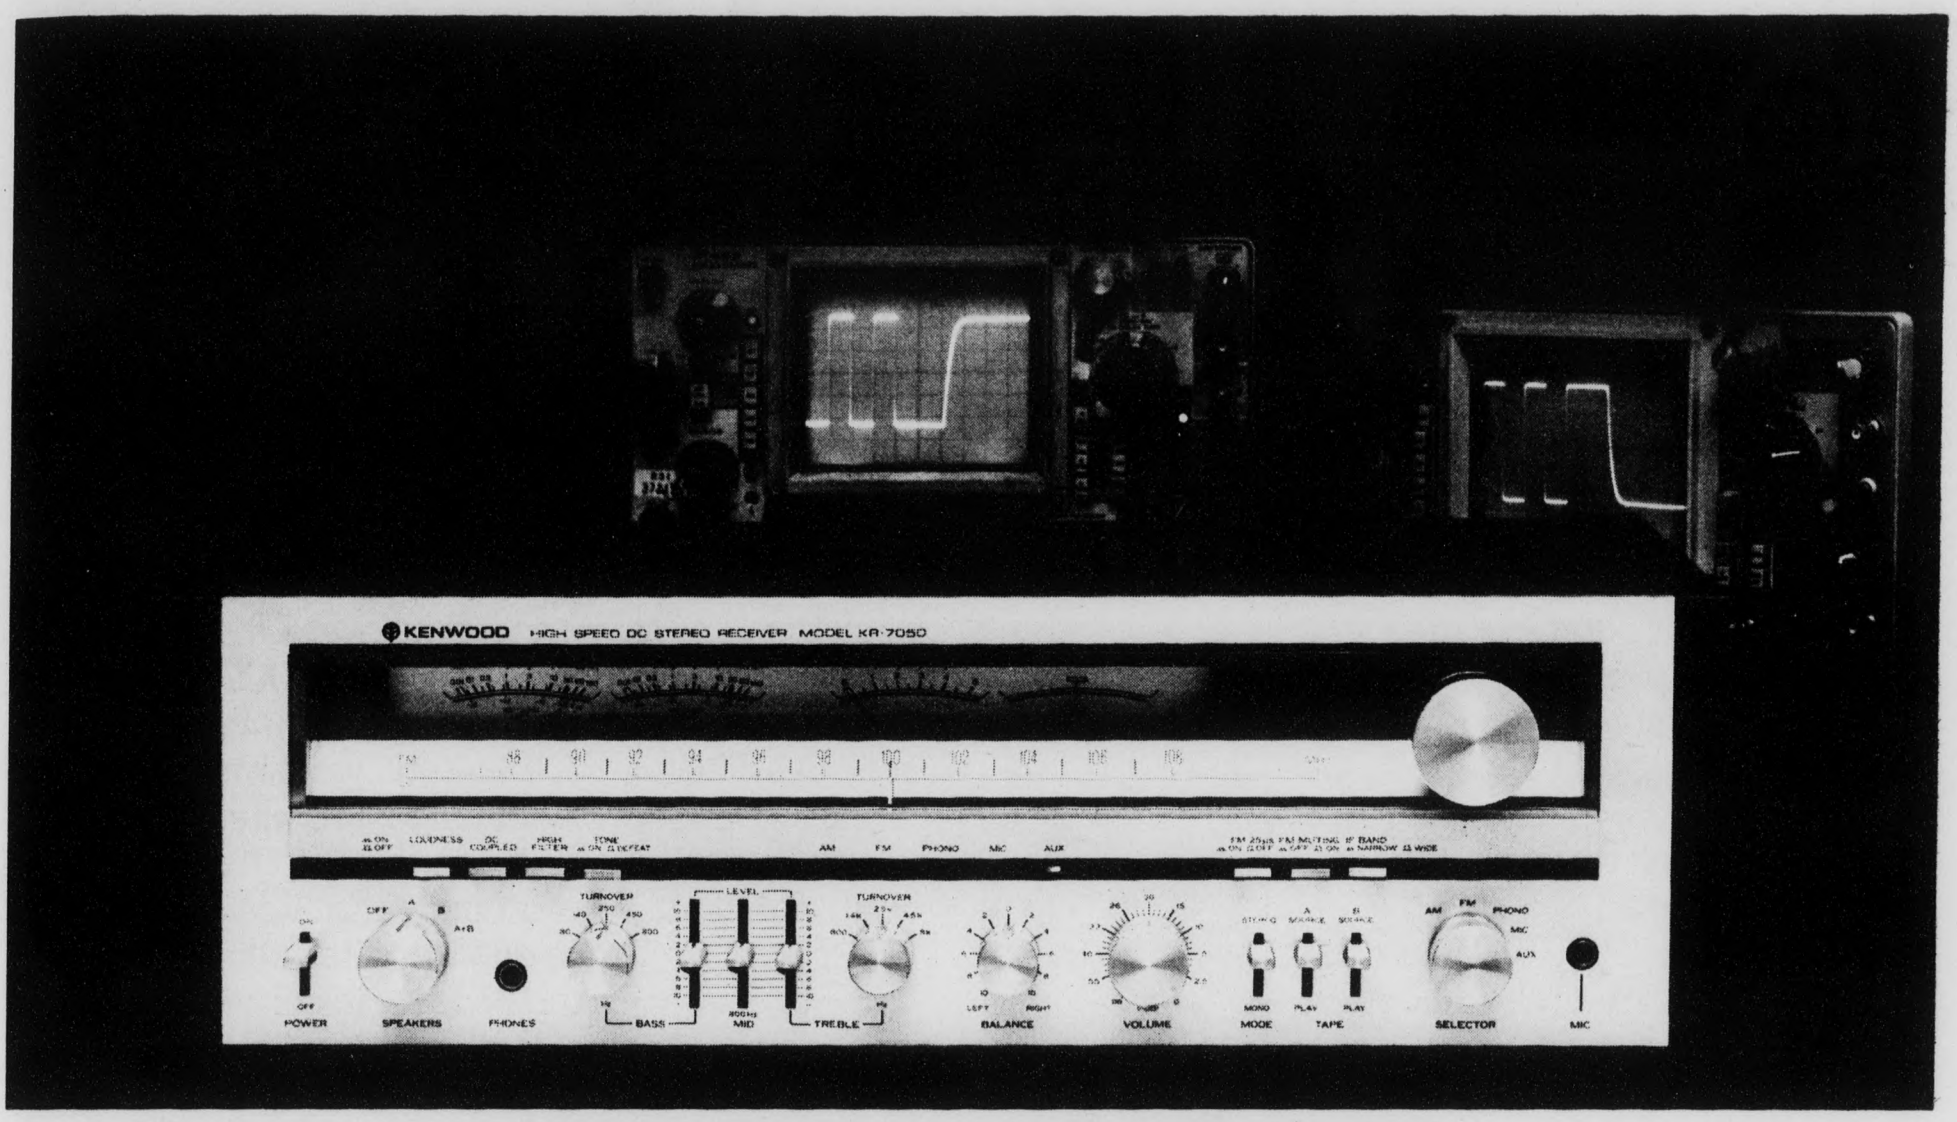
On top of all of this, Corolla offers more forceful performance due to its larger 1.8 liter, 4 cylinder engine. Along with a quieter ride, due to increased noise absorption.

Yet with everything changed, the name Corolla remains. For good reason.

Corolla stands for reliability, a generous amount of standard features and total economy. And that's what is at the heart of all 12 new Corolla models.

Toyota's new 1980 Corolla Liftback. A new car by any other name wouldn't be such a treat!

COROLLA'S ALL NEW LIFTBACK. ONLY THE NAME HASN'T BEEN CHANGED.



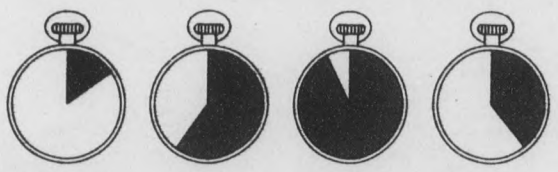
INDEPENDENT TEST REPORT: KENWOOD HAS BETTER TRANSIENT RESPONSE THAN PIONEER®, TECHNICS® OR YAMAHA®.

Recently, we asked an independent testing laboratory to measure Kenwood's new Hi-Speed™ receiver against the competition. Each one "off the shelf" in unbroken factory cartons.

The results were impressive, if not surprising.

The Kenwood receiver outperformed comparable models of other brands in both rise time and slew rate, the same new specifications that are used to measure a receiver's ability to handle complex musical signals.

RISE TIME (5 MICROSECOND CLOCK)



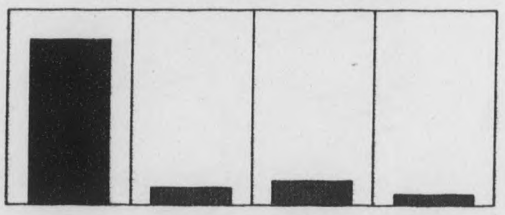
KENWOOD	PIONEER	TECHNICS	YAMAHA
KR-7050	SX-980	SA-700	CR-1040
.85 μs	3.0 μs	4.60 μs	2.00 μs

Of course, the Kenwood receiver had one unfair advantage: Kenwood's exclusive Hi-Speed circuitry. Hi-Speed allows an amplifier section to react faster to changes in music to minimize audible transient intermodulation distortion.

In the laboratory, this shows up as superb specs and an almost perfect square wave on an oscilloscope.

In your home, you'll hear superior clarity and definition with excellent imaging. For example, you'll be able to identify an individual singer in a vocal group.

SLEW RATE MEASUREMENT RESULTS



KENWOOD	PIONEER	TECHNICS	YAMAHA
KR-7050	SX-980	SA-700	CR-1040
200 V/μs	20 V/μs	29.4 V/μs	10.7 V/μs

Your Kenwood dealer can show you the entire line of Hi-Speed receivers.

Because if you're going to buy a receiver, why not go with the best performer?

The Unknown Comic comes out for The Unknown Stereo.

"You know, buying a stereo for your home is a serious business. Which is why Pioneer chose me to tell you about their Centrex® line.

See, I've found a unique way to pick the perfect stereo.

I call it listening.

This Christmas, then, if you go out shopping for a stereo, you'd do well to wear a bag over your head.

Because if you will just trust your ears, they'll tell you better than some prominent celebrity such as myself what you need to know: Centrex sounds superb.

Once your ears have shown you that, then it's o.k. to take a look. Then you can allow yourself to be seduced by Centrex's extremely handsome appearance.

And let your head be turned by all the Centrex convenience features. The Loaded Deck.™ Song Finder.™ Auto Rewind.

Dolby*. The professional-style strobed turntable. And the extraordinarily sensitive AM/FM receiver with 22 watts per channel. (Both channels driven into 8 ohms over a frequency range of 40 to 20,000 Hz with no more than 0.7% THD).

If you still want more to go on, let me just remind you that Centrex comes from Pioneer. A company that's celebrated for the quality of its audio products. And its taste in comedians.

But don't just listen to me. Listen to Centrex. You'll hear everything you need to know."

Armory Registration Schedule

Priority for New Students and Special Problems

Newly admitted, reinstated and readmitted students who were unable to preregister and those students meeting the criteria for Schedule II will have priority admission to the Armory. This priority access is designed to: 1) help eliminate the overcrowding in the Armory, 2) enable students who really need courses (new registrants and people with partial schedules) the opportunity to register first, and 3) encourage students to take advantage of preregistration and thus avoid the necessity of going to the Armory.

SCHEDULE I — Nonpreregistered newly admitted, readmitted, and reinstated students
Monday, January 14 — 8:30 a.m. to 3:55 p.m.

This schedule will apply to newly admitted, readmitted, and reinstated students who did not preregister. Students in this category should report directly to Reckord Armory according to the alphabetic schedule. Newly admitted students and reinstated students must present their Letter of Admission/Reinstatement signed by their Provost, Dean, or designated representative, to be permitted to enter the Armory. Readmitted students must present their Letter of Readmission to be permitted to enter the Armory. While advisement is not a prerequisite for Armory admission for readmitted students, these students are strongly urged to take advantage of campus advisement offices. **Only students who had no opportunity to preregister may register according to this schedule.**

Step 5 — How To Pay Your Bill

IF YOU DID NOT PREREGISTER	IF YOU DID PREREGISTER
Complete academic course sectioning. Complete the Student Bill Form given to you upon entrance to the Bill Paying Area at Station #1. Go to Student Aid Desk if you have any form of student aid financial support coming to you. Go to the Bill Paying Area — Station #2 to get bill added. Go to Station #3 to obtain a payment card. Make out your check at the Check Writing Tables, Station #4. *Write student's name and social security number on the front of the check.* Pay the Cashier at Station #5. Turn in all course slips at the Final Registration Desk, Station #6, as you exit the main floor of the Armory. Registration is not official until "Registrations" (hard copies) of add forms are turned in. A graduate student or part-time undergraduate who returns to add course(s) which result in a net increase to his/her account must pay this amount by January 18, 1980.	Make any academic schedule adjustments. Do not enter the Bill Paying Area enclosure. Drop tuition payment in box at the Bill Paying Area entrance gate unless you require change from a check. *Be sure student's name and Social Security Number is written on the front of your check.* If you require a change or a receipt, go to the Cashiers Window in the South Administration Building and make your payment. Any drop/add which results in a net increase to your account must be paid by January 18, 1980. Any preregistered student whose bill is to be paid by an outside agency is requested to come to Room 1103, South Administration Building with a copy of the Agency Purchase Order prior to Registration to receive contract credit. The cut-off date for acceptance of all contracts is January 18, 1980. The student remains responsible for fees if not paid by sponsor. Exit via the rear door of the Armory.

Bills for payment of fees were mailed in December 1979 to students who preregistered for Spring 1980. Since the University has no deferred payment plan, PAYMENT IN FULL MUST BE MADE NO LATER THAN JANUARY 18, 1980, BY BOTH PREREGISTERED AND REGULAR REGISTRATION STUDENTS. Accounts not paid by January 18, 1980 are delinquent and subject to referral to the State Central Collections Unit at Baltimore.

Students who did not preregister and do not pay their bills while in the Armory have not completed registration. As a courtesy, the registration packet will be held at the Final Registration Station until full payment is made. Proof of payment must be shown by Friday, January 18, 1980 and the packet picked up. If the packet is not picked up by January 18, 1980, when the Armory Registration closes, the packet will be held at the Registration Counter, first floor, North Administration Building through Late Registration. However, the Late Registration Fee ($20.00) is charged beginning January 21, 1980. Failure to pick up packet will result in no registration for the semester and no grades.

For additional information on fees and expenses, refer to pages 12 and 13.

Financial Aid Checks (NDSL, BEOG, SEOG)

Financial aid will be credited to student accounts. A check for any balance remaining after charges are paid will be available for those students receiving financial aid. Preregistered students may pick up checks in Room 1103 of the South Administration Building from 8:30 a.m. until noon and from 1:00 p.m. until 4:00 p.m. on January 9, 10, and 11 and in the Armory on January 17 and 18. New registrants may pick up checks in the Armory on January 14, 16, 17 and 18.* Checks should be picked up as soon as possible. You must have your ID card and proof of registration (current ID card and/or add slips) in order to obtain your check.

*On January 14 and 16, alphabetic schedule for entrance to Armory is in effect.

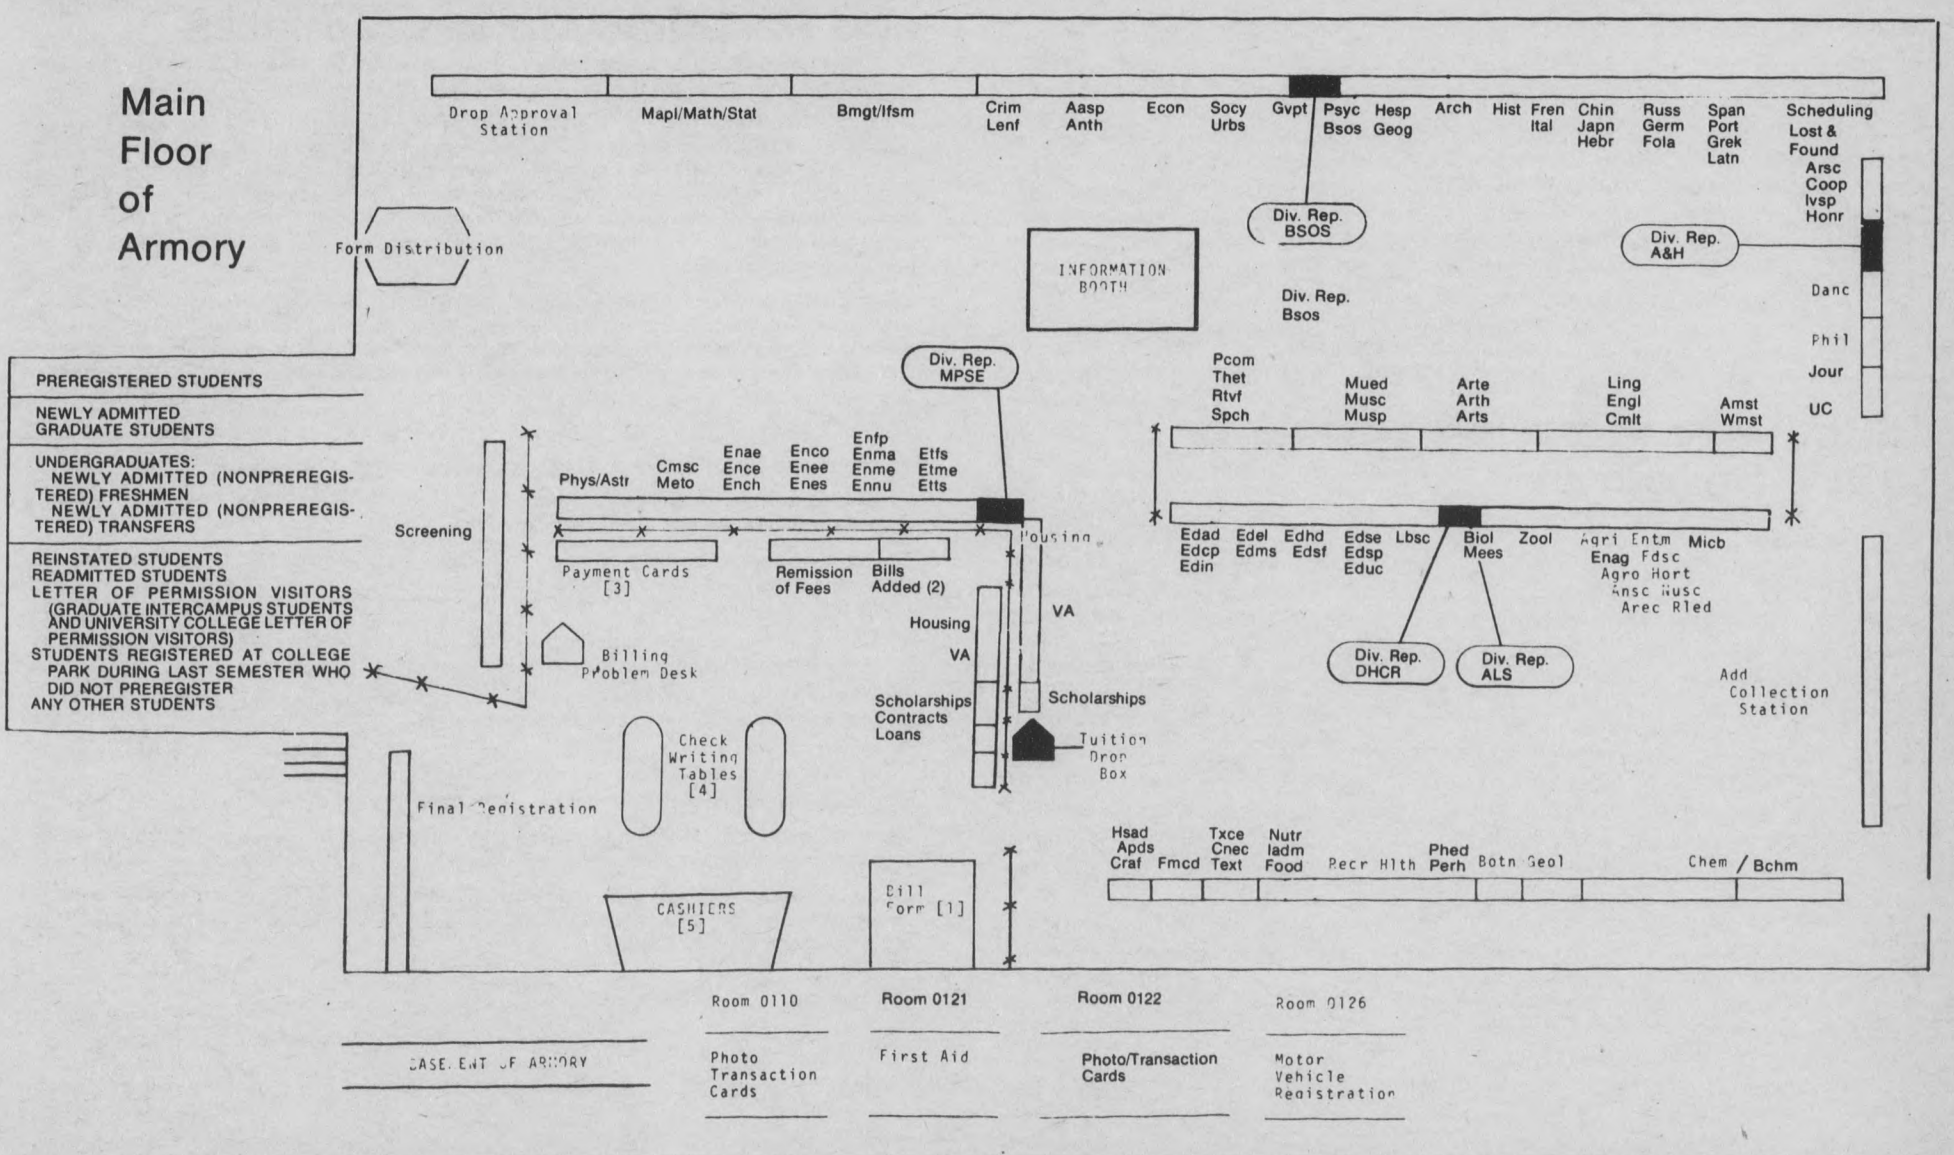
Step 6 — What To Do in the Armory Basement

Identification Cards

Students entering the Armory basement from the upper arena will be directed to the Photo Identification Stations where they will be photographed and/or issued their Registration Card. Students who received Photo Identification Cards since the Fall 1976 semester should continue to use them. Preregistered students who need only to replace an ID Card may enter the Armory basement at the side facing the North Administration Building.

Vehicle Registration

Students who wish to register their motor vehicle(s) will be directed to the northwest door of the Armory basement. Signs will be posted along the north walkway directing students to the northwest door. Students will enter Room 0126 to complete their vehicle registration applications and then proceed to the west corridor to receive validations. Students will exit through the southwest door.



Continuous Registration

(Graduate Doctoral Students Only)

Following advancement to candidacy by the Graduate Council for the doctoral degree, every graduate student must register each fall and spring semester until the degree is awarded. Contact the Dean for Graduate Studies and Research for more complete information. (454-5428)

University College Students

UMUC students *who have completed a minimum of 15 semester hours with UMUC with at least a "C" (2.0) cumulative grade point average*, are eligible to register at UMCP. They must obtain a letter of permission from the UMUC Office of Admission and Registration Services and present it at the Armory in order to complete registration.

Deadlines for Graduate Students and Part-time Undergraduates

Full-time undergraduate students do not receive a refund for courses dropped if the total number of credits for which they are registered remains 9 or more.

PRIOR TO THE FIRST DAY OF CLASSES (JANUARY 14 and 16), if a full-time undergraduate student drops a course or courses, thereby changing the total number of credits for which the student is registered to *8 or less*, charges for the semester will be assessed on the basis of the per credit hour fee for part-time students. However, if the student later adds a course or courses, thereby changing the total number of credits for which the student is registered to *9 or more*, the student will be billed for the difference between per credit hour fees paid and the general fees for full-time undergraduates.

If during the FIRST FIVE DAYS OF CLASSES (JANUARY 17-23) a full-time undergraduate drops a course or courses thereby changing the total number of credits for which he/she is registered to eight or less, charges for the semester will be assessed on the basis of part-time charges plus 20% of the difference between the full-time fees and appropriate part-time charges. After the first five days of classes, there is no refund for changing from full-time to part-time status.

JANUARY 31 AND AFTER — $2.00 fee is assessed for *each* drop processed (to be billed).

This applies to both graduate and undergraduate students.

Refund Schedule for Dropping Courses
Graduate Students and Part-time Undergraduates

Both graduate students and part-time undergraduates are charged by the credit hour. A percentage charge and/or complete charge for the course may be imposed if the deadlines indicated below are not followed.

1. January 14 and 16 (prior to the first day of classes) ..... 100% refund
   There will be no charge for courses *dropped* on these two days.
2. January 17-23 (first five days of class) ..... 80% refund
   There will be a 20% charge imposed for courses *dropped* during this period.
3. January 24 and after ..... 0% refund
   Student will incur full charge for courses *dropped* during this period.
4. January 31 and after: a $2.00 charge is imposed for *each* drop processed (to be billed).

Students who wish to drop one course and add another at the same credit level should accomplish both transactions on the *same* day to insure additional charges are not imposed.

NOTE: A drop of one course and a credit level change of equal amount in another course, even if accomplished on the same day, *is not* considered an "even exchange" and appropriate charges for both courses will be imposed.

3. *Graduate Assistants*

Graduate students who are graduate assistants will be certified full time if their assistantship is confirmed in writing by Graduate School and they are taking 24 units. This must be done each semester. Please note . . . the Veterans Administration's definition of "full time" for Graduate Assistants differs from the University of Maryland definition and should be used only for VA purposes.

The campus makes available various courses and services to persons who are 60 years of age or older by the first class day, residents of the State of Maryland and retired (not engaged in gainful employment for more than 20 hours per week). When persons eligible for this Program apply for the Program or are newly admitted to the Program, they may register for credit courses as regular or special students in any session. Tuition and most other fees are waived. The Golden Identification Card entitles eligible persons to certain academic services, including the use of the libraries, as well as certain other non-academic services. Such services are available during any session only to persons who have registered for one or more courses for that session. A card is issued after registration. For further information, please contact the Registrations Office, North Administration Bldg., 454-5559.

Study Abroad

Study in London — for a semester through University of Maryland, University College. The curriculum consists of courses in the Humanities and Social Sciences which focus on Britain. A required interdisciplinary workshop will use London as the classroom. Students are housed with families to increase their immersion in British life. For information, contact the Study Abroad Office, 454-3043.

Returning Students Program

Experiential Learning Programs

0119 Undergraduate Library Building, 454-4767

What is Experiential Learning?

Experiential learning is one of the University's most exciting learning opportunities. It provides the student with an understanding of the relationship between theory and practice and the practical work experience which is invaluable for advancement in a career. Experiential Learning Programs (ELP) offers three major programs and directs students to several different options, all of which are designed to give them first-hand experience:

Cooperative Education

Cooperative education is our most intensive way to learn by doing. Because "coop" is growing on a national level and is becoming increasingly popular with local employers, we are expanding our program to include placements in a wide range of majors. Students in "coop" alternate two semesters of full-time, fully-paid work in business, industry, or government with a semester of full-time study. By the end of this work-study-work sequence, students have gained excellent professional training and have defrayed a good portion of their educational expenses. Many students are promoted and continue to work for their employers after graduation.

Volunteer Service/Learning

ELP maintains a listing of field experience opportunities in over 600 different organizations in the metropolitan area which have expressed an interest in having UMCP students work with them. With this information and the help of peer advisors, students can arrange placements relating to a wide range of interests and majors.

Internships

An internship is a work experience granted academic credit. As in the volunteer program, students use the ELP listings to locate placements, then negotiate with a faculty member to receive credit. Usually, the professor will want the student to produce academic work connecting the student's practical experience with appropriate theoretic background. After all the details are worked out, the professor, student, and organization supervisor draw up a learning contract to assure that all parties understand what is expected.

Financial Information

Fees and Expenses

ALL STUDENTS WHO PREREGISTER FOR THE FALL SEMESTER INCUR A FINANCIAL OBLIGATION TO THE UNIVERSITY.

The University of Maryland does not have a deferred payment plan. Payment of all past due balances and current semester fees is due on or before August 24, 1979.

It is the policy of the University *not* to defer payment of fees on the basis of a pending application for financial assistance to an outside agency. This includes Veterans Administration, banks, guaranteed student loan programs, etc.

Returning students will not be permitted to complete registration until all financial obligations to the University including current semester fees, library fines, parking violation assessments and other penalty fees and service charges are paid in full. If a student registers without proper financial clearance from the Office of the Bursar, his/her registration will be cancelled without further notice. If a student becomes financially ineligible after preregistering, his/her preregistration will not be processed unless and until his/her account balance is paid in full.

Although the University regularly mails bills to students, it cannot assume responsibility for their receipt. Students are urged to obtain a copy of their financial account in Room 1103 of the South Administration Building between the hours of 8:30 a.m. and 4:15 p.m., Monday through Friday if they are not certain their account is paid in full. Students may also obtain their account balance by phoning 454-4832.

All checks or money orders should be made payable to the University of Maryland for the exact amount due. The student's social security number must be written on the check. In cases where the University has awarded a grant scholarship, or workship, the appropriate amount will be deducted on the bill, mailed approximately one month after the start of the semester.

Students will be severed from University services for delinquent indebtedness to the University which occurs or is discovered during a semester. In the event that severance occurs, the individual may make payment during the semester in which services were severed and all these services except housing will be restored. For a student who lives in on-campus residence halls, and who fails to fully resolve any outstanding balance, the severance of housing services means that (1) the student must leave residence halls, (2) the student's room is assigned to another student, and (3) the severed student may reapply for housing services, if the account is later satisfactorily resolved and other University services are restored, and be placed last on a waiting list for available on-campus housing spaces. Students who are severed from University services and who fail to pay the indebtedness during the semester in which severance occurs will be ineligible to preregister or register for subsequent semesters until the debt is cleared. In the event of actual registration in a later semester by a severed student who had not settled the student account prior to that semester, such registration will be cancelled and no credit will be earned for the semester.

Restoration of Services Fee: $25.00. Students who fail to pay the balance due on their accounts will have their University services severed. In order to have the services restored, students will be required to pay the total amount due plus the $25.00 Restoration of Services Fee.

The State has established, under legislative mandate, a CENTRAL COLLECTIONS UNIT within the Department of Budget and Fiscal Planning. This campus has been instructed that all delinquent accounts must be transferred to the State Collections Unit.

ALL ACCOUNTS DUE FROM STUDENTS, FACULTY, STAFF,
NON-STUDENTS, ETC. ARE INCLUDED WITHIN THESE GUIDELINES.

Collection costs incurred in collecting delinquent accounts will be charged to the student. The University is required by State law to refer all past due accounts to the State Central Collections Unit. The minimum collection fee is 15% plus any attorney and/or court costs.

No degree will be conferred, no grade issued, nor any diploma, certificate, or transcript of record issued to a student who has not made satisfactory settlement of his or her account.

For checks from $50.01 to $100.00: $10.00
For checks over $100.00: $20.00

When a check is returned unpaid, the student must redeem the check and pay any outstanding balance in the account within 10 days or all University services may be severed and the account transferred to the state Central Collection Unit for legal follow-up. Additionally, a minimum 15% collection charge is added to the charges posted to the student's account at the time the transfer is made.

Library Charges: $ .25 — Fine for failure to return a book from General Library before expiration of loan period: per day. Fine for failure to return book from Reserve Shelf before expiration of loan period: First hour overdue on first day: $1.00; after first hour on first day, $ .50 per hour for each hour open up to a maximum of $30.00 per item. In case of loss or mutilation of a book, satisfactory restitution must be made.

Motor Vehicle Penalties: These are described in Traffic Rules & Regulations.

Property Damage Charge: Students will be charged for damage to property or equipment. Where responsibility for the damage can be fixed, the individual student will be billed for it; where responsibility cannot be fixed, the cost of repairing the damage or replacing equipment will be prorated among the individuals involved.

Restoration of Services Fee: $25.00. Students who fail to pay the balance due on their accounts will have their University services severed. In order to have the services restored, students will be required to pay the total amount due plus the $25.00 Restoration of Services Fee.

Graduation Fee for Bachelor's and Master's Degrees: $15.00

Graduation Fee for Doctor's Degree: $60.00

Billing Information

Bills for payment of fees are mailed in December 1979 to students who preregistered for Spring 1980. Since the University has no deferred payment plan, PAYMENT IN FULL MUST BE MADE NO LATER THAN JANUARY 18, 1980, BY BOTH PREREGISTERED AND REGULAR REGISTRATION STUDENTS. Accounts not paid by January 18, 1980 are delinquent and subject to referral to the State Central Collections Unit at Baltimore.

For student convenience, payment by mail is encouraged; however, payment also may be made at the Office of the Cashier, South Administration Building, Monday through Friday. Students may pay in person at the Office of the Cashier, 8:30 a.m. to 4:15 p.m. where they are required to present a Student ID card with payment. Also students, if paying by presonal check, may drop the payment in the Mail Remittances hallway drop box beside Room 1108, South Administration Building, at any time that the building is open. If a student uses the drop box, the processed check will serve as receipt.

Periodically, during the semester bills will be mailed to students reflecting charges incurred for parking tickets, library fines, course adjustments, etc. These bills are due on receipt. The University cannot assume responsibility for their receipt if bills are not received.

Students who have questions on their bills may obtain print-outs of their financial accounts by coming to Room 1103 of the South Administration Building between 8:30 a.m. and 4:15 p.m., Monday through Friday.

Each student is individually responsible for all of his or her fees and expenses. If a third party, such as an employer, agrees to pay these charges, the student is not relieved of his or her primary responsibility. In the event that such third party fails to honor its agreement, the University reserves the right to bill the students directly. Failure to pay this bill thereafter will result in the suspension of services to the student by the University and transference of the account to the State Central Collections Unit. WHEN A PAYMENT IS MADE TO THE UNIVERSITY, PAYMENT OF ANY OUTSTANDING BALANCE PRECEDES PAYMENT OF CURRENT INDEBTEDNESS. That is, the oldest account balance is liquidated first.

FAILURE TO PAY OUTSTANDING DEBTS WILL RESULT IN SEVERANCE OF UNIVERSITY SERVICES AND TRANSFER OF THE ACCOUNT TO THE STATE CENTRAL COLLECTIONS UNIT. A MINIMUM OF 15% COLLECTIONS CHARGES ARE ADDED AT THIS TIME.

Remission of Fees for Faculty and Staff

Every semester an approved Authorization for Remission of Fees form must be turned in to the College Park Budget Office (Room 2132, Main Administration Building) in order to receive credit on the student bill for courses taken by faculty and staff members. Usually the authorizing department will forward this form directly to the Budget Office. Each faculty and staff member should check with his department to ascertain that the proper forms have been submitted.

Published deadlines and procedures for admission, readmission or reinstatement and registration apply to University faculty and staff who wish to take courses.

Questions regarding admissions? Contact Admissions Office, 454-5550.

Questions regarding registrations? Contact Registrations Office, 454-5559.

Questions regarding employee remission of fees? Contact Budget Office, 454-3106.

Withdrawal and Refund of Fees

No part of the charges for room and board is refundable except when the student officially withdraws or is dismissed from the University or when the student effectively completes residence halls and/or dining services contract release procedures. When the student completes the residence hall contract release procedures, a room refund will be computed based upon the requested release date and the date the request for contract release is received by Resident Life. Refunds for housing services are made on a pro rata weekly basis.

In computing refunds to students who have scholarships and loans from University funds, the computation will be made in such a way as to return the maximum amount to the scholarship and loan accounts without loss to the University.

A part-time or full-time undergraduate who drops MATH 001 will receive an 80% refund of the $75.00 fee if the course is dropped during the first five (5) days of classes, and 0% thereafter. MATH 001 will still be counted in the determination of hours for full-time or part-time status, notwithstanding the refund policy.

A part-time or full-time undergraduate student who drops COOP 208, 209, or ENCO 408, 409 will receive an 80% refund of the fee if the course is dropped during the first five (5) days of classes and 0% thereafter.

Withdrawal from the University

(January 17 or later)

1. All students must report to Room 1130, North Administration Building, to complete a withdrawal form.
2. Withdrawal becomes effective on the date the form is filed with the Office of Records and Registrations. Stopping payment on a check does not constitute an official withdrawal.
3. A tuition credit adjustment will be initiated upon receipt of the withdrawal form. The amount of the adjustment is determined by the date the form is filed in the Withdrawal Office.
4. Refer to the schedule below for credit adjustment information. Registration, Health, Athletic, and Activity Fees are not refundable. A base figure of $385.00 for resident students and $1,245.00 for non-resident students is used in computing the amount of the credit adjustment after January 16.
5. Be certain to return all books to the Library and clear all financial accounts at the Office of the Bursar, South Administration Building. Refunds for credit adjustments will be authorized after all student financial aid adjustments have been processed and any balance remaining on the account has been deducted.

NO CREDIT BALANCE IS AUTOMATICALLY REFUNDED. Approximately five to six weeks is required from the time a credit balance appears on the account and a refund request is received until a check is mailed from the State Treasurer's Office in Annapolis. THE CHECK WILL BE MADE PAYABLE TO THE STUDENT and mailed to the address requested by the student on the refund form. Refund checks will not be mailed to a campus address.

Financial Aid Information

Students on scholarships and grants are expected to maintain a semester credit load of 12 hours. Courses taken as "Audit" cannot be counted toward credit level. If the registration of a student with a scholarship or grant falls below the required credit hours, the scholarship or grant is automatically cancelled. Cancellation of a scholarship or grant without subsequent payment of amounts due will lead to an indebtedness to the University. Such indebtedness can in turn lead to severance of services by the University. Any student receiving financial aid who is contemplating dropping credits should see his/her financial aid counselor *before* taking such action.

Students sponsored by an agency or their employer remain responsible for their fees. When payment is not received by the University from the sponsor, the student will be charged.

Preregistered students' bills will be mailed. Students not preregistered will complete an estimated bill form at registration time. The following information may be helpful:

1. All University scholarships and grants (including BEOG, SEOG, and National Direct Student Loans) will be credited to the bill as designated in the award letter. If you have already paid your Student Account, you must submit in writing a request for a refund to the Office of the Bursar. The refund will take approximately five to six weeks to process after the credit balance appears on your Student Account and the refund request is received. If not credited on preregistered bill, deduct approved financial aid award amount and pay the difference. BEOG, SEOG, NDSL, and other refundable grant funds not needed to complete payment of the University bill will be available by check from the Office of the Bursar.
2. Financial aid will be credited to student accounts. A check for any balance remaining after charges are paid will be available for those students receiving financial aid. Preregistered students may pick up checks in Room 1103 of the South Administration Building from 8:30 a.m. until noon and from 1:00 p.m. until 4:00 p.m. on January 9, 10, and 11 and in the Armory on January 17 and 18. New registrants may pick up checks in the Armory on January 14, 16, 17 and 18* Checks should be picked up as soon as possible. You must have your ID card and proof of registration (current ID card and/or add slips) in order to obtain your check.
3. Students who receive scholarships, grants, or loans after classes have begun and who have paid their Student Account for the award period must request a refund in writing from the Office of the Bursar. The refund will take approximately five to six weeks to process after the credit balance appears on the account and the refund request is received.
4. Other scholarships and grants paid to the University by an outside agency will be credited to the student's bill. (Exception — National Merit Scholarship checks will be available in the Office of the Bursar.)
5. Guaranteed Loan checks are distributed to students by the lending agency, except in those cases where the lending institution sends the check to the University directly. These checks are to be picked up at the Office of the Bursar, Room 1103, South Administration Building.
6. Dining Hall cash jobs will be paid bi-weekly to student as work is performed.
7. Dining Hall Workships (and other University Workships) will be credited to bill as designated in award letter.
8. College Work Study and other University student employment will be paid to the student bi-weekly as work is performed.
9. STUDENTS WHO RECEIVE A NATIONAL DIRECT STUDENT LOAN MUST ATTEND AN ENTRANCE INTERVIEW. The loan credit cannot be posted to the student's account nor a check disbursed if the student has not attended an entrance interview.

A student who has not received final approval of a financial aid award and accepted the award should not expect a credit on his/her bill nor a check at the time of registration. No deferment will be granted and the student should be prepared to pay his/her bill by the first day of classes unless financial aid has been awarded and accepted by the student.

Deferments for repaying NDSL loans require that students be registered at least half time: undergraduate students — 6 credits; graduate students — 24 academic units.

*On January 14 and 16, alphabetic schedule for entrance to Armory is in effect.

Academic Information

The changes in academic information described on the following pages became effective August 1973 and are applicable only to course work for August 1973 and after.

Retention and Graduation

The University has minimum requirements for retention and graduation. A complete statement of these requirements are located in the *Undergraduate Catalog*.

Outlined below are certain provisions of the ACADEMIC RETENTION PLAN. This material, which was prepared by the Undergraduate Advisement Office, is to assist you in schedule planning and schedule change. It is *not* meant as a substitute for a thorough reading of "Requirements for Retention and Graduation," as found in the *Undergraduate Catalog*.

Table I

The College Park Retention Plan is based on (1) QUALITY POINTS *and* (2) CUMULATIVE AVERAGE. Here's how to compute both.

(1) QUALITY POINTS (Q.P.'s): For each semester, Q.P.'s are awarded for grades of A, B, C, D, P, and S.

A Q.P. is the *numerical* equivalency of a *letter* grade. Course Q.P.'s are obtained by multiplying these numerical equivalencies by the number of credits the course has. To figure how many Q.P.'s you have earned, or expect to earn, for each of your courses, use the following table:

Q.P.'s given for expected or Actual Grade		Number of Credits in The Course		Total Quality Points for the Course
	A= 4			
	B= 3			
	C= 2	×	=	
	P= 2*			
	S= 2*			
	D= 1			
	F= 0			

EXAMPLE: Semester Schedule of 15 Credits —

Course	*Grades*	*Credits Earned*	*Q.P.'s*
ENGL 101	C	3	6
MATH 110	B	3	9
ZOOL 101	A	4	16
EDIN 101	P*	2*	4*
PSYC 100	D	3	3
		15	38

*These count only in figuring your Q.P.'s for the semester. They are not counted in your cumulative average.

(2) CUMULATIVE AVERAGE: Your cumulative average is based on TOTAL CREDITS ATTEMPTED — Any course you've ever taken at any of the University campuses for which you've been assigned a Grade of A, B, C, D, or F — and the TOTAL NUMBER OF QUALITY POINTS you've earned for these courses. (See Note below for Repeated Courses). Courses for which a Grade of "P" or "S" has been assigned are NOT included. To figure your cumulative average do the following:

NUMBER OF Q.P.'s EARNED ÷ NUMBER OF CREDITS ATTEMPTED = CUMULATIVE AVERAGE

EXAMPLE: Semester Schedule of 15 Credits (See Example Above)

Course	*Grades*	*Credits Attempted*	*Q.P.'s*	*Cumulative Average*
ENGL 101	C	3	6	
MATH 110	B	3	9	
ZOOL 101	A	4	16	Q.P.'s Earned — 118
EDIN 101	P	(2)	(4)	÷
PSYC 100	D	3	3	Credits Attempted — 40
Current Semester Totals		13	34	=
Previous Semester Totals		27	84	2.95
Total Credits		40	118	

Note: If you repeat a course that you took in the Fall Semester, 1973, or any semster since then, count only credits and quality points for the higher grade received for that course when figuring total credits attempted and total quality points.

Table II

MINIMUM QUALITY POINT REQUIREMENT:

If, at the end of Schedule Adjustment Period (First 10 days of classes) You are officially registered for:

12 or more credits	11-9 credits	8-1 credits
You must earn for this semester a minimum of:		
24 Quality Points (On grades of A, B, C, D, P, and S. Marks of F, W, and I do not confer Quality Points) Note: See Table III, below for exceptions	22 Q.P.'s for 11 credits 20 Q.P.'s for 10 credits 18 Q.P.'s for 9 credits	For part-time students there is no minimum quality point requirement. Note: If you have completed 45 credits, you must fulfill the cumulative average requirement, below.

CUMULATIVE AVERAGE REQUIREMENT:

If at the end of last semester, your total number of credits completed was 45+ or more, then at the end of this semester you must have:

The Minimum Quality Point Requirement (Full-time Students — 9 or more credits) *and* A Cumulative Grade Point Average of 1.95 (Full-time *and* Part-time Students)

+On your grade report for last semester, add "hrs. attempt." *and* "transfer credit level" and pass-fail courses to see if you have 45 or more.

Credits completed with grades of A,B,C,D, and F, but not S,W,P or I will be used in the computation of the cumulative average.

If these requirements are not met, Academic Probation will result. Two consecutive or four non-consecutive semesters of Academic Probation will result in Academic Dismissal.

Table III

Are you registering at the College Park Campus for the *First Time*? If so, then here's what you need to earn in your first semester for the Retention Plan:

A. FULL-TIME FRESHMAN[2] with no more than 8 credits earned through prior college/university attendance —	B. FULL-TIME TRANSFER[3] STUDENT with 44 or fewer credits accepted for transfer —	C. FULL-TIME TRANSFER STUDENT with 45 or more credits accepted for transfer —
18 Q.P.'s	18 Q.P.'s	1.95 Cumulative Average

Note: To meet this requirement, students registering for 12 or more credits would have to earn at least 24 Q.P.'s. Students registering for 9 credits would have to earn 18 Q.P.'s; 10 credits — 20 Q.P.'s; 11 credits — 22 Q.P.'s.

[2](i.e. students registered for 9 or more semester hours)

[3]"Full-time Transfer Student" includes students transferring from other University of Maryland campuses. Grade Point Averages, Semester Hours Attempted, Semester Hours Earned, and Quality Points from the other campus(es) are included in all College Park calculations.

Marking System

1. The following symbols are used on the student's permanent record for all courses in which he is enrolled after the initial registration and schedule adjustment period: A, B, C, D, F, I, P, S, and W (Instructors are not permitted to change a grade of "W".) These marks remain as part of the student's permanent record and may only be changed by the original instructor on certification, approved by the department chairman and Divisional Officer, that an actual mistake was made in determining or recording the grade.
2. The *mark of A* denotes excellent mastery of the subject. It denotes outstanding scholarship. In computations of cumulative or semester averages a mark of A will be assigned a value of 4 quality points per credit hour.
3. The *mark of B* denotes good mastery of the subject. It denotes good scholarship. In computations of cumulative or semester averages a mark of B will be assigned a value of 3 quality points per credit hour.
4. The *mark of C* denotes acceptable mastery. It denotes the usual achievement expected. In computation of cumulative or semester averages a mark of C will be assigned a value of 2 quality points per credit hour.
5. The *mark of D* denotes borderline understanding of the subject. It denotes marginal performance, and it does not represent satisfactory progress toward a degree. In computations of cumulative or semester averages a mark of D will be assigned a value of 1 quality point per credit hour.
6. The *mark of F* denotes failure to understand the subject. It denotes unsatisfactory performance. In computations of cumulative or semester averages a mark of F will be assigned a value of 0 quality points per credit hour.
7. The *mark of P* is a student option mark, equivalent to A, B, C, or D. (See PASS-FAIL option). The student must inform the Office of Registrations of his selection of this option by the end of the schedule adjustment period. In computation of cumulative averages a mark of P will not be included. In computation of quality points achieved for a semester, a mark of P will be assigned a value of 2 quality points per credit hour.
8. The *mark of S* is a department option mark which may be used to denote satisfactory participation by a student in progressing thesis projects, orientation courses, practice teaching and the like. In computation of cumulative averages a mark of S will not be included. In computation of quality points achieved for a semester, a mark of S will be assigned a value of 2 quality points per credit hour.
9. The *mark I* is an exceptional mark which is an instructor option. It is given only to a student whose work in a course has been qualitatively satisfactory, when, because of illness or other circumstances beyond his control, he has been unable to complete some small portion of the work of the course. In no case will the mark I be recorded for a student who has not completed the major portion of the work of the course. The student will remove the I by completing work assigned by the instructor. It is the student's responsibility to request arrangements for completion of the work. An "Incomplete Contract" should be drawn up between student and instructor outlining these arrangements. A copy of this is to be filed in the Department Office. The work must be completed by the end of the next semester in which the course is again offered and in which the student is in attendance at the College Park Campus; otherwise the I becomes terminal (equivalent to W). Exceptions to the time period cited above may be granted by the student's Dean or Divisional Officer upon the written request of the student if circumstances warrant further delay. If the instructor is unavailable, the department chairman will, upon request of the student, make appropriate arrangements for the student to complete the course requirements. It is the responsibility of the instructor or department chairman concerned to return the appropriate supplementary grade report to the Office of Registrations promptly upon completion of the work. The I cannot be removed through registration for the course or through the technique of "credit by examination". In any event this mark shall not be used in any computations.
10. The *mark W* is used to denote that the student withdrew from a course in which he was enrolled at the end of the Schedule Adjustment Period. For information and completeness, the mark "W" is placed on the permanent record by the Registrations Office. This mark shall not be used in any computation of quality point or cumulative average totals at the end of the semester. However, this mark does not change the minimum number of quality points a student is required to achieve based on registration at the end of the Schedule Adjustment Period.
11. *Audit.* A student may register to audit a course or courses in which space is available. The notation AUD will be placed on his transcript for each course audited. A notation to the effect that this symbol does not imply attendance or any other effort in the course will be included on the transcript in the explanation of the grading system.

Credit by Examination for Undergraduate Students

1. Credit may be earned by examination for any undergraduate course, for which a suitable examination has been adopted or prepared by the department granting the credit. When standardized CLEP (College Level Examination Program) examinations are available and University of Maryland approved, they may be used. However, since CLEP examinations count as transfer credit, they generally may not be used during the student's last 30 credits before graduation.
2. Any student may take a course by examination by obtaining an application form from Dr. Helen Clarke (Room 3147, Undergraduate Library), paying the requisite fees, and taking the examination at a time mutually agreeable to the student and the department offering the course.
3. The applicant must be formally admitted to the University of Maryland. Posting of credit, however, will be delayed until the student is registered.
4. Application for credit by examination is equivalent to registration for a course; however, the following conditions apply:
   A. A student may cancel his application at any time prior to completion of the examination with no entry on his permanent record. (Equivalent to the schedule adjustment period.)
   B. The instructor makes the results of the examination available to the student prior to formal submission of the grade. Before formal submission of the grade, a student may elect not to have this grade recorded. In this case a symbol of "W" is recorded. (Equivalent to the drop procedure.)
   C. No course may be attempted more than twice.
   D. The instructor must certify on the report of the examination submitted to the Registrations Office that copies of the examination questions or identifying information in the case of standardized examinations, and the student's answers have been filed with the Chairman of the department offering the course.
5. Letter grades earned on examinations to establish credit (if accepted by the student) are entered on the student's transcript and used in computing his cumulative grade point average. The quality points earned on credit by exam are not counted in the current semester's quality point total. A student may elect to take an examination for credit on a "Pass-Fail" basis under the normal "Pass-Fail" regulations.
6. Undergraduate students may earn by examination no more than half the credits required for the degree.
7. Fees for Credit by Examination.
   A. Fees for CLEP (College Level Examination Program) and other standardized examinations.
      (a) Fees for these examinations are determined externally and are not altered by the University. Credits earned by taking such examinations are treated as transfer credits.
   B. Fees for University administered examinations to establish credit.
      (1) All undergraduate students are charged $30.00 for each course examination regardless of the number of credits. This fee is paid upon application for the examination and is not refundable regardless of whether or not the student completes the examination.

Undergraduate Pass-Fail Option

1. An **undergraduate** who has completed 15 or more credit hours at the College Park Campus and has a cumulative average of at least 2.00 may register for courses on the PASS-FAIL option during any semester or summer session.
2. Certain divisional requirements, major requirements or field of concentration requirements do not allow the use of the PASS-FAIL option. Certain courses within a department may be designated by that department as not available under the PASS-FAIL option. It is the responsibility of each student electing this option to ascertain in conjunction with his Provost, Dean, department or major advisor, whether the particular courses will be applicable to his degree requirements under the PASS-FAIL option.
3. No more than 20 percent of the College Park campus credits offered toward the degree may be taken on the PASS-FAIL option basis.
4. Students registering for a course under the PASS-FAIL option are required to complete all regular course requirements. Their work will be evaluated by the instructor by the normal procedure for letter grades. The instructor will submit the normal grade. The grades A, B, C, or D will automatically be converted by the Office of Registrations to the grade P on the student's permanent record. In computation of cumulative averages a mark P will not be included. In computation of quality points achieved for a semester a mark of P will be assigned a value of 2 quality points per credit hour. The grade F will remain as given. The choice of grading option may be changed only during the schedule adjustment period for courses in which the student is currently registered.

NOTE: Changes of grading option (e.g., Regular to PASS-FAIL) may be processed only during the first ten days of classes.

GRADUATE — Not eligible for the PASS-FAIL grading option.

Commencement Honors

Honors for excellence in scholarship are awarded to not more than ten percent (10%)of the graduating class in each degree granting unit. Summa Cum Laude is offered to the highest two percent (2%), Magna Cum Laude to the next three percent (3%), and Cum Laude to the next five percent (5%). To be eligible for this recognition, a total of at least 60 semester credits earned at the University of Maryland is required. Of these 60 credits, at least 30 credits must have been earned at the College Park campus. No student with an average less than 3.00 will be considered. (The computation of the average does not include grades for courses taken during the last semester of registration before graduation, although the hours earned for that semester will apply toward the 60-hour requirement.)

General University Requirements (G.U.R.)

Effective August 1973, new GENERAL UNIVERSITY REQUIREMENTS replaced the General Education Requirements. Students enrolled in the University prior to August 1973 have the option of completing either the old General Education Requirements or the new General University Requirements. *All students first entering the University in August 1973 or after must complete the new General University Requirements.*

GENERAL UNIVERSITY REQUIREMENTS consist of 30 semester hours of credit distributed as described below:

I. At least 6 credits must be taken in each area. At least 9 of the 30 semester hours must be taken at the 300 level or above. None of the 30 hours may be counted toward published departmental, college or divisional requirements for a degree. Students may select either the pass-fail or letter grading option for these courses as outlined in this Schedule (See Pass-Fail Option).
   Area A: 6-12 hours elected in the Divisions of Agricultural and Life Sciences; Mathematical & Physical Sciences & Engineering.
   Area B: 6-12 hours in the Divisions of Behavioral and Social Sciences: Human and Community Resources.
   Area C: 6-12 hours in the Division of Arts & Humanities.
   In meeting these area requirements, students may choose from among any undergraduate courses for which they are qualified. Students are urged to consult with academic advisors for guidance in determining which courses in each area best fit individual needs and interests.

II. New freshman students who entered the University during Summer Session, 1978, or who were admitted for Fall semester, 1978, must complete six credits of English composition. The specific required courses are ENGL 101 *and* ENGL 391 or 393. Exemptions based on SAT-VERBAL scores and ADVANCED PLACEMENT scores are allowed. Questions about exemptions for individual students should be referred to the English Department, extension 4160.
Only three credits of the required six credits in English Composition may be applied toward fulfilling General University Requirements. When used, these three credits may be *in addition to* the twelve-credit maximum in Area "C". None of the composition credits, however, may be used to satisfy the minimum six-credit requirement for Areas "A," "B," "C," *or* the nine-credit upper division requirement.
The English Department strongly advises entering freshmen to fulfill the first composition requirement during their first year of coursework. Since junior standing is a prerequisite for ENGL 391 and 393, students should register for the second semester of composition only after having earned fifty-six semester hours of credit.
To further define "area" this chart has been prepared by the Advisor's Workshop. On the chart is listed the prefix of all courses offered on the College Park campus. The prefixes are listed according to which area (A, B, or C) of the General University Requirements they will meet.

2. Demonstrate proficiency in a foreign language equivalent to the level achieved by successfully completing the first 12 semester hours study of a foreign language (course level 104, 115, or 204; exception, CHIN 102). Students can satisfy this requirement if they have successfully completed level three in high school in one foreign language or level two in each of two foreign languages. Students may not take foreign language courses taught in English translation to satisfy the requirement.
3. Successfully complete one of the following courses in speech communication: SPCH 100, 107, 125, 220, or 230.
   Students who have successfully completed a full unit of speech in high school will satisfy the speech requirement.

Division/College/Major (Course of Study) Changes

Undergraduate Students Only:
Division, College, and Major (Course of Study) changes may be made at any time, the only restrictions being Board of Regents limitations on enrollment. However, students contemplating a change to the School of Architecture or the College of Business and Management should contact the Office of Undergraduate Admissions, 454-4536, for additional information regarding the special requirements for entrance into these programs.

If you wish to initiate a change in your Division, College, and/or Major (Course of Study):

1. Go to a Division/College office or the Registrations Office, first floor lobby, North Administration Building, to obtain the Division/College/Major (Course of Study) Change Form. Division/College office locations are listed below.
2. Complete the information requested on the form. (All necessary information is on the form).
3. Take the completed form to your new Division if you are changing Divisions or to your new College if you are changing Colleges. If you are changing Major (Course of Study) only, take completed form to your present Division or College.

Graduate Students Only:
If you wish to change programs or degree objectives, you must submit a new application with fee to the Graduate School. Current deadlines for new applications apply.

Foreign Language Placement

Arts and Humanities Requirements: If a student has had three years of one foreign language or two years in each of two foreign languages as recorded on his/her high school transcript, he or she is not required to take any foreign language in the division, although he or she may elect to do so. However, the College of Journalism requires completion either by course work or placement, of any intermediate language level (104, 115). The School of Architecture has no foreign language requirement.

French Department: A departmental placement exam will be given to *all* students registering *for the first time* on this campus for French language courses in the basic and intermediate sequence (100 level and 201 and 211). The examination will be administered in the language laboratory of the Language Media Center during the week prior to preregistration, during preregistration and during registration week from 8 a.m. to 3 p.m. The exam may be taken during those hours at the student's convenience. Students should take this examination before registering so that they may be placed at the proper course level. Results will be available in the Department of French and Italian, room 3106D. CEEB French Achievement test scores will be accepted on an equivalent basis with the placement exam. Meanwhile, those wishing to register prior to taking the exam may find the following guidelines helpful: French 101 for those with less than two years of French; French 103 or 104 for those with two years or more. *Do not register for 102 unless you have had French 101 on this campus.* A student who has taken French 101 or 103 on this campus, or their equivalent on any other campus, *may not* take French 121 (Accelerated French I) for credit. "Audit," however, is permitted. Any student who has taken French 104 on this campus, or its equivalent on any other campus, *may not* take French 122 (Accelerated French II) for credit. Again, the option of "Audit" remains open.

Spanish Department: Students who have had at least two years of high school Spanish, and who wish to continue or resume their study of that language, are urged to take the placement exam if (1) they feel uncertain of their ability to take Spanish 104, or (2) they wish to be exempted from Spanish 104. Students who have taken the CEEB Spanish Achievement test should submit their achievement scores in lieu of taking the University's placement exam. A student with two or more years of high school Spanish may take Spanish 101 for credit provided he or she obtains the permission of the Chairman of the Department. Students starting in Spanish 101 must follow the prescribed sequence of Spanish 101, 102, and 104. Students who feel uncertain of their ability to take Spanish 104 may choose to take Spanish 103 (a one semester review course) without taking the University placement exam. Spanish students placing in 103 must complete 104 to satisfy the divisional language requirement. Students placing in 104 are required to complete 104 only. Students placing above 104, or who have taken the equivalent of 104 at another institution, are deemed to have satisfied the language requirement.

German and Spanish Placement Exam Schedule:
During the semester there will be placement testing in Room 0106, Shoemaker Building. To be admitted for testing, students must have a picture I.D. Call R. Williams, X2931, for appointment. Testing during Spring Registration will be Monday, January 14, 1980, and Thursday, January 17, 1980, at 3:00 p.m. in the Testing Room, Shoemaker Building. Bring a picture I.D. in order to be admitted.

Guidelines to Administration of Examinations and Tests on Religious Holidays

Examinations and tests: All examinations and tests shall be given during class hours in accordance with the regularly scheduled (or officially "arranged") time and place of each course listed in the *Schedule of Classes* and/or the *Undergraduate Catalog*. Unpublished changes in the scheduling or location of classes/tests must be approved by the department chairman and reported to the Provost. It is the responsibility of the student to be informed concerning the dates of announced quizzes, tests and examinations.

It is the policy of the University to excuse the absences of students that result from religious observances and to provide without penalty for the rescheduling of examinations that fall on religious holidays. Examinations and tests may not be scheduled on Rosh Hashannah, Yom Kippur, or Good Friday.* An instructor is not under obligation to give a student a make-up examination unless the absence was caused by illness, *religious observance* or by participating in University activities at the request of University authorities.

A make-up examination, when permitted, must be given on Campus, unless the published schedule and course description require other arrangements. The make-up examination must be at a time and place mutually agreeable to the instructor and student, cover only the material for which the student was originally responsible, and be given within a time limit that retains currency of the material. The make-up must not interfere with the student's regularly scheduled classes in the event that a group of students require the same make-up examination; one make-up time may be scheduled at the convenience of the instructor and the largest possible number of students involved. Under the same guidelines students shall have equal access to all information and drills missed due to the reasons listed.

*For the academic year 1979-80, this means Monday, October 1, 1979, for Yom Kippur, and Friday, April 4, 1980 for Good Friday. Rosh Hashannah falls on Saturday, September 22, so the scheduling of exams will not be affected.

Policy on Non-Discrimination

The University of Maryland is an equal opportunity institution with respect to both education and employment. The University's policies, programs and activities conform to pertinent federal and state laws and regulations on non-discrimination regarding race, color, religion, age, national origin, sex, and handicap. Inquiries regarding compliance with Title VI of the Civil Rights Act of 1964, as amended. Title IX of the 1972 Education Amendments, Section 504 of the Rehabilitation Act of 1973, or related legal requirements should be directed to the appropriate individual designated below.

Director of the Office of Human Relations
Room 1114, Main Administration Building
University of Maryland, College Park
College Park, Maryland 20742

Campus Coordinator for §504 of the
Rehabilitation Act of 1973
Room 2101, Main Administration Building
University of Maryland, College Park
College Park, Maryland 20742

The University of Maryland uses an individual student's social security number as his or her identification number for University records. If you do not wish the University to use your social security number for this purpose, write the Office of Registrations, North Administration Building, College Park, Maryland 20742. The University will then assign its own number to you for record-keeping purposes.

The provisions of this publication are not to be regarded as an irrevocable contract between the student and the University of Maryland. Changes are effected from time to time in the general regulations, in class scheduling, and in the academic requirements.

The Office of Human Relations Programs Wants to Know
Do You Know Your Human Relations Code?

Q. What is the UMCP Human Relations Code?
A. The Code is the campus document prohibiting discrimination within the College Park Campus community on the basis of race, color, creed, sex, marital status, personal appearance, age, national origin, political affiliation, mental or physical handicap, and on the basis of the exercise of rights secured by the First Amendment of the United States Constitution. The Human Relations Code establishes formal grievance and mediation procedures for the Campus.

Q. To whom does the Human Relations Code apply?
A. All UMCP students, faculty and staff in all academic and non-academic units of the Campus. Organizations and committees functioning under the direction and supervision of the campus administration are also expected to abide by its directives against discriminatory behavior.

Q. And what kinds of things could a person complain about?
A. Per Section II. A. 1 and 2 of the Code: Complaints of discrimination may be filed because of race, color, creed, sex, marital status, personal appearance, age, national origin, political affiliation, mental or physical handicap, or on the basis of exercise of rights secured by the First Amendment of the United States Constitution.

Q. How does a person file a complaint?
A. There are two types of procedures:
Formal Process: Article III of the Human Relations Code outlines a procedure which requires an individual to file a formal grievance with the Campus Compliance Officer of the Office of Human Relations Programs, with the EEEO Officer of a professional college or department, or with a Divisional Equity Officer. The grievance must be filed within 120 days of the time the allegedly discriminatory act(s) occurred or within 120 days of the time when one first became aware of the act(s).
Informal Process: Article III. D — Any member of the Campus Community who believes that he or she has been or is being discriminated against in ways prohibited by the Code may consult confidentially with any of the persons designated above and ask for help in settling a dispute informally. A majority of the complaints received by the Office of Human Relations Programs are resolved in this manner.

Q. Does everyone have to know I've been there when I come in to discuss something I may want to complain about?
A. Not necessarily. The degree of confidentiality maintained by the office is specified in Article III C of the Code. You are free to decide what sort of assistance you want. You can also be counseled about the kind of help you may need. Some types of assistance can be given without your being identified beyond the Human Relations Office. Other kinds of help may require your permission to reveal your name to a limited extent. The important thing is that you can decide on the kind of help you want and/or whether or not you want to accept the form of help that is available.

Q. How long does it take to resolve a grievance?
A. It depends upon the nature of the case. Investigation of each case begins shortly after it is received to determine whether or not a complaint is one which can be handled under the Code and one which appears to be substantive.

Q. Do you ever get any complaints that don't appear to be valid?
A. Sometimes.

Q. Suppose I think mine is valid and someone I complain to officially doesn't agree?
A. You can check out the opinions of the Human Relations Office, an equity officer or an EEEO officer by means of an appeal process which is outlined in the Code.

Q. Is complaining worth the trouble?
A. From January, 1977-December, 1977, 40 informal complaints were filed and investigated. During the same period, 39 formal complaints were filed and settled or referred for settlement by means of other more appropriate grievance processes.

Q. Who else on campus besides the Human Relations Office has major responsibility for equal opportunity and affirmative action matters?
A. Each academic and non-academic unit has a person who functions as an equity officer. That is to say, he or she is responsible for processing and monitoring equity matters within his/her unit. These people have various official titles such as Assistant Provost, Assistant to the Provost, Assistant Vice Chancellor or Assistant to the Vice Chancellor. They report directly to the administrators to whom their titles designate they are responsible.

Q. Where can I get a copy of the Human Relations Code and possibly discuss something that concerns me?
A. You may speak with any of the following:

ANDERSON, AMEL (Dr.)
Agricultural & Life Sciences
1110 Symons Hall x5981

BEALE, ROBERT (Dr.)
Agricultural & Life Sciences
1110 Symons Hall x5981/2562

1119 Main Admin. Building x2502

WATERS, LAWRENCE (Mr.)

2132 Main Administration Building x4841

Q. Does the Human Relations Office work with other organizations on campus to combat discrimination?
A. Yes, with both on-campus and off-campus organizations. Such groups have access to other forms of technical and consultative assistance on request.

Q. Can I or my organization come in and discuss an idea for addressing discrimination on the UMCP Campus?
A. Certainly. Students, faculty, and staff often do and are welcome. You are encouraged to speak with Human Relations Office staff and with Campus equity officers in the Vice Chancellors' and Provosts' offices as well.

Q. What if my filing a grievance results in some form of retaliation against me? What can be done?
A. Actions undertaken to eliminate discriminatory treatment include negotiation and persuasion. These have proved successful in discouraging retaliation against complainants.

Q. What about students with legitimate complaints of unfair treatment that may not be related to acts of discrimination? Is there a student grievance procedure that provides protection for them?
A. Such a procedure was initially proposed by the Human Relations Office drafted by the Campus Senate and reviewed by the Chancellor. It was recently remanded by the Chancellor to the Senate Executive Committee. The Committee will consider it further and may amend it prior to presenting it again to the Senate body. Should the Senate vote to do so, it will again transmit the procedure to the Chancellor for approval.

Advisement Information

Advisement

UNDERGRADUATE — Advising is an essential part of an undergraduate's educational experiences at the University of Maryland. From orientation to graduation, it can provide the kind of concerned assistance that helps students better understand their purposes for "being in college."

For most students, advising is not required. This allows individual students to decide, on the basis of personal circumstances and needs, whether or not to see an advisor. There are some groups of students, though, who *must* obtain advising assistance. These include:

NEWLY ADMITTED FRESHMEN AND TRANSFER STUDENTS, STUDENTS ON ACADEMIC PROBATION, STUDENTS SEEKING REINSTATEMENT AFTER DISMISSAL OR WITHDRAWAL, and STUDENTS NEARING SENIOR STATUS.

Undergraduate students at the College Park Campus are encouraged to use the many advisement opportunities that are available to them. At all academic levels — divisional, college, and departmental — at least one person has been designated to coordinate advising. A list of these persons, providing name, room number, and telephone extension is published each semester in the *Schedule of Classes*. Students who are unable to locate an advisor or who have questions about campus advising programs should visit or call the Undergraduate Advising Center, Room 3155, Undergraduate Library, 454-2733 or 454-3040.

GRADUATE — Graduate students preregistering or registering for courses must have the approval of their program advisors in order to make certain that the minimum Graduate School and program requirements are being satisfied, particularly in the case of degree seekers.

Credit Limits

UNDERGRADUATE — limited to **19 semester hours**
Any exceptions must be approved by the Dean or Provost. Forms for this purpose will be available in the Dean's or Provost's Office and should be turned in with Registration materials.

GRADUATE — limited to **15 semester hours**

GRADUATE STUDENTS WITH A TEACHING OR RESEARCH ASSISTANTSHIP — limited to **10 semester hours**

Full-Time Status

Effective August 1973, official status (either full-time or part-time) *for academic purposes* will be determined on the basis of a student's registration at the end of the Schedule Adjustment Period. The Schedule Adjustment Period is defined as the first ten days of classes.

UNDERGRADUATE — Full-time — Registered for 9 or more semester hours at the end of the Schedule Adjustment Period. Note, however, that students on scholarships and grants are expected to maintain a semester credit load of 12 hours. If the registration of a student with a scholarship or grant falls below the required credit hours, the scholarship or grant is automatically cancelled. Cancellation of a scholarship or grant without subsequent payment of amounts due will lead to an indebtedness to the University. Such indebtedness can in turn lead to severance of services by the University.

GRADUATE — Full-time — Registered for minimum of 48 graduate *units* at the end of the Schedule Adjustment Period.

GRADUATE STUDENTS WITH TEACHING OR RESEARCH ASSISTANTSHIP — Full-time — Registered for minimum of 24 graduate *units* at the end of the Schedule Adjustment Period.

Table for Computing Graduate Units

Course Number	Graduate Unit

Zero-Level Courses

FOLA 001 FOLA 002 GERM 001 MATH 001* RUSS 001

Although these courses carry credit for billing and status purposes, they are regarded as having zero credit for academic calculation purposes. Therefore, these courses are excluded from the calculation of credits registered at the end of the Schedule Adjustment Period, from the calculation of quality points and from the calculation of cumulative grade point averages.

*Math 001 fees are also discussed under "Fees and Expenses."

Would you sign up for a lifetime course in applied Christianity?

Our course will take you deep into the Third World, to some of the most depressed and oppressed places on earth.

To God's Country.

As a Maryknoll Missioner, you can share the love of God with these, His people. You can bring them hope and peace and dignity.

You will practice some very practical Christianity, too. You might set up adult education classes, show a starving farmer how to improve his crop, or a struggling worker how to improve his lot. Most of all, you will share the Gospel of Jesus Christ.

You will learn and keep on learning the rest of your life. You will learn and share their language, of course. But also their culture, traditions and, yes, their religion. You will learn the quality of joy that can only come from doing unto others, because all the while you give yourself to their lives, they give meaning to yours.

Please tell me more about a lifetime career as a Maryknoll Missioner.

DISTINGUISHED SCHOLAR-TEACHER COURSES

The Campus last year initiated the Distinguished Scholar-Teacher Program whereby outstanding scholar-teachers will offer a series of special courses with an inter-disciplinary emphasis. Each of the Distinguished Scholar-Teachers offers one course open to undergraduate students regardless of major. For the spring semester, the course and instructor will be:
Prof. Philip Bobko — Department of Psychology

PSYC 309E — "STATISTICATING" IN THE REAL WORLD (3). T-10-12/ARR. ZP2109. This course will focus on the uses and misuses of statistics, including fallacies in formal and informal logic. Some topics we will consider are statistical significance, graphs, political influences on statistics, measurement and logic. Group (or individual) projects will be required (e.g., visits to the FTC or analysis of TV commercials, etc.). (A previous course in statistics or research methods will be helpful.)

The Distinguished Scholar-Teachers represent the best instruction offered at College Park. In view of the general interest of these courses, the instructors will welcome to the classroom any member of the Campus community who wishes to attend some or all of the lectures. No advance arrangements are necessary.

DEPARTMENT OF ADMINISTRATION, SUPERVISION, AND CURRICULUM

EDAD 806 — SEMINAR IN HIGHER EDUCATION (THE COLLEGE/UNIVERSITY PRESIDENT). Who leads American colleges and universities? How are they selected? What do they do when they leave the presidency? The course will include conversations with presidents from both public and private institutions and students will analyze data from a massive study of college presidents currently being conducted by Professor Robert Carbone.

DEPARTMENT OF AEROSPACE ENGINEERING

ENES 131 — INTRODUCTION TO FLIGHT (3). Introduction to the history and science of aviation. Approximately one half of the course is presented on history of aviation by Dr. Richard Hallion of the Smithsonian Air and Space Museum. Approximately one hour of exposure to a GAT I flight simulator is included.

Artists, folklorists, historians, musicologists, and other authorities on Blues will be brought in periodically to address the class. Selected reading and listening assignments along with creative projects will stimulate and support discussion.

AASP 428W — BLACK WOMEN IN AMERICA. This provocative course traces historically the role of black women from slavery to the 20th century. The lives, struggles, and accomplishments of numerous black women, organizations, issues, and personalities are discussed in detail.

This course analyzes the impact and social significance of the black athlete in America from the 19th century to the present through an examination of the interplay of sport and society. Of particular concern will be the impacts of Jack Johnson, Joe Louis, Jackie Robinson, Olympic competition and other personalities, organizations, events and issues.

DEPARTMENT OF ANTHROPOLOGY

ANTH 101 — INTRODUCTION TO PHYSICAL ANTHROPOLOGY AND ARCHAEOLOGY. An optional laboratory and fieldwork experience has been added to this already popular offering. There will be a 2 hour weekly lab for students interested in physical anthropology which will feature hominid fossil materials and some basic experiments in human genetics. For students interested in archaeological fieldwork there will be a survey of the prehistoric sites in the campus vicinity. Labs and fieldwork are weekly, non-credit, and optional. They are open to students in any section of ANTH 101.

ANTH 389C — LIFE HISTORY AND THE CONCEPT OF THE PERSON. This course will analyze diverse cultural models of the person, focusing on differing conceptualizations of a "life" and its history, culturally defined psychologies, and assumptions about male and female. These models will then be contrasted to traditional anthropological and psychoanalytic approaches to studying the person cross-culturally. From this, we will attempt to tackle problems in collecting and analyzing life history materials cross-culturally.

ANTH 401 — PRINCIPLES AND PROCESSES: CRISES IN ANTHROPOLOGICAL THEORY. This course will pursue some of the paths currently being explored in "symbolic" anthropology: structuralism, phenomenology and analyzing culture as a text, psychoanalytically based elaborations, critical anthropology and neo-Marxian approaches to the study of ideology.

ANTH 437 — POLITICS AND GOVERNMENT IN PRIMITIVE SOCIETY. This course will survey both the major types of government-like institutions and political action in divers cultural settings as well as the different approaches taken by anthropologists and other social scientists to such phenomena. We shall examine government and politics at various levels of socio-cultural integration namely bands, tribes, chiefdoms and states though the emphasis will be placed on centralized regimes in chiefly and state-level societies. Consideration will be given to the role of ideology both in legitimizing certain political systems as well as in providing models for alternative and often radical political transformation.

ANTH 465 — HUMAN GROWTH AND CONSTITUTION. Find out how children grow, how men and women differentiate at adolescence, how people age, how malnutrition changes the body, how muscular you really are. A course for natural and social science students with interest in human biology.

GVPT 429B — PROBLEMS IN POLITICAL BEHAVIOR: Politics and the Crisis of the Welfare State. There has been much discussion about the political consequences of such economic phenomena as "stagflation," the very sharp rise in oil prices, the cost of social security and welfare programs and the pinch on the taxpayer's pocket book. This discussion will be the point of departure for the course, but alternative sequences of development between the political aspects and the economic conditions of welfare states will also be examined — including the possibility that political crisis would have materialized regardless of economic conditions and that perhaps some of the economic problems follow from political sources.

GVPT 436 — THE LEGAL STATUS OF WOMEN: Women and the Law. An examination of the historical and contemporary status of women in the American legal system through analysis of judicial interpretation of common, statutory and constitutional law.

Students will be evaluated on the basis of midterm and final examinations, a short oral report, class participation, and a paper.

Organizing aspects, unit construction, the strategy and tactics of bargaining as well as scope of bargaining mediation, fact-finding and arbitration are studied.

GVPT 479E — PROBLEMS OF AMERICAN PUBLIC POLICY: Science and Technology. How can democracies make decisions about complex scientific and technological issues when neither the average representative nor citizen understands the enormously technical issues involved? What role should scientists and other experts play in this process? Can new "non-political" institutions, such as the Office of Technology Assessment of the U.S. Congress, help Congresspeople make more informed and rational decisions? These are some of the issues this course examines. "Science and technology policy" is an increasingly important field. This course is particularly suitable for any student who plans to enter government service. It is particularly appropriate for natural and applied science majors (e.g., engineers), who want to know how their technical expertise can be translated into political influence.

Advanced approaches to public personnel management building on a basic background which students will perfect in this seminar: Performance ratings; in-service training programs and their organization; collective bargaining and unionism in the public service — Federal, State, and Municipal; motivational and reward systems. The new Federal Civil Service Reorganization proposals, including the Senior Executive Service (SES), will be a topic for special study, as will be up-to-date developments in the "Proposition XIII Movement" as they impact on public employees. Case materials will be used from relevant private-sector as well as public-sector personnel management cases, including Harvard cases and the H.E.W. reorganization case from a personnel perspective.

GVPT 828A — SELECTED PROBLEMS IN POLITICAL BEHAVIOR: Psycho-analytic Methodology and Politics. Course examines psychoanalytic methodologies, with special reference to the structure of the self, the "politics" of the self and the ways in which psychoanalysis understands 'facts' and 'values'. Some additional themes will include: (1) a 'psychoanalytic' understanding of a classic 'moment' in the history of political (Aristotle's Politics); (2) the scientific 'claims' of psychoanalysis; and (3) psychoanalytic range of interpretation in looking at 'political' phenomena.

Its subject matter is the relationship between Divine Law (the Shari'ah), legislated law, and the social structure of Morocco, Tunisia, Egypt, and Saudi Arabia. Emphasis will be placed on the investigation of how legislators attempt to modify the Divine Law or to bring conventional law into harmony with the strictures of Divine Law in order to further development/modernization. The goal of our critical speculation will be a judgement about the effectiveness of these attempts as well as a deeper understanding of what modernization involves.

GVPT 848B — CURRENT PROBLEMS IN POLITICAL THEORY: Value and Justice — Smith, Marx, Rawls. Considers the important linkages between economic arrangements, political arrangements and social goals that fueled classical political economy, and seems on the verge of coming back as a vital area of concern. DEPARTMENT OF PHILOSOPHY

PHIL 100 — INTRODUCTION TO PHILOSOPHY. This course explores questions concerning the nature of the self, our knowledge of the world, and the nature of physical reality — questions directly relevant to the basic issues about living that arise for all of us. If human beings are essentially mechanistic, as science strongly suggests, is there a point to choice and morality? If there is no way to *prove* the existence of the kind of physical world we seem to experience, is our commitment to science based on blind faith?

PHIL 233 — PHILOSOPHY IN LITERATURE (Dr. Perkins). The reading of most great works of literature is enhanced by an understanding of the philosophical ideas embedded in them. In this course we shall try to discover some of the philosophically interesting content of the following literary works: Wallace Stevens, *The Palm at the End of the Mind;* D. H. Lawrence, *The Rainbow;* Jane Austen, *Pride and Prejudice;* Samuel Beckett, *Krapp's Last Tape, All That Fall, Waiting for Godot, Happy Days, Embers.*

PHIL 236 — PHILOSOPHY OF RELIGION (Dr. Staude). In the first part of the course, the concept of God as it occurs in the major theistic religions will be examined, and the evidence for believing that there exists something to which the concept applies will be investigated, along with evidence often given for believing that there is nothing to which the concept allies. The second part of the course will investigate two questions of particular concern today: the relation between reason and faith, and the nature and significance of religious experience. The third part of the course will be reserved for consideration of those issues which are live concerns for the students in the class.

PHIL 250 — PHILOSOPHY OF SCIENCE I (Dr. Hausman). No background in science or philosophy is presupposed. The principal questions to be addressed include: (1) What is the difference between sciences and nonsciences? (2) What is the nature of scientific inference — how do scientists come up with their results, and what good reason do we have to believe them? (3) What is a scientific theory? Why do scientists have theories? What sort of knowledge do theories provide? (4) What goals does science have? Does science lead us to the truth? (5) How does scientific knowledge change and develop? (6) Can the social sciences be sciences too? (7) Can we predict human behavior?

PHIL 308B — METAPHILOSOPHY (Dr. Odell). Philosophy has been criticized for its lack of relevance to today's social and political problems, and philosophers for being preoccupied with obscure problems of interest only to other philosophers. In this course we will examine the views of a number of leading contemporary philosophers regarding the nature, goals, and relevance of philosophy in today's world. Prerequisite: one course in philosophy.

PHIL 325 — NINETEENTH CENTURY PHILOSOPHY (Dr. Staude). Much of 19th-century European philosophy can be viewed as centering around the thought of G.W.F. Hegel; the part of 19th-century philosophy that can be so viewed is the concern of this course. The content of the course is divided into four unequal sections. First, a review of the central issues and ideas in the philosophy of Immanuel Kant. Second, the development of German Idealism between Kant and Hegel, with particular attention to the thought of J. G. Fichte. Third, part of Hegel's system. Fourth, several reactions to the thought of Hegel; in particular, those of Feuerbach and Marx, of Kierkegaard, and of Nietzsche. If time permits, some attention will be given to the rise of Hegelianism in British philosophy. Prerequisite: two courses in philosophy.

PHIL 330 — PHILOSOPHY OF ART (Dr. J. Brown). The course begins with a historical survey of aesthetics and philosophy of art from Plato to the present, focusing on the nature of beauty and its role in our experience of art and nature. The main aim is to explore problems and possibilities of making valid aesthetic and artistic judgments. The second part of the course takes up problems arising in art criticism, especially in connection with visual art of the twentieth century. The purpose is to clarify some main issues in art criticism (the relevance of the artist's intentions, the question of standards, the difference between art and non-art) and to develop students' ability to respond intelligently and verbally to art works and art criticism.

PHIL 345 — POLITICAL AND SOCIAL PHILOSOPHY I (Dr. Johnson). This course will be devoted primarily to the writings of several classic writers in political philosophy. Many of the theoretical arguments that support a form of capitalism, or socialism, or a democratic government can be found in these writings. One important goal will be for you to develop the capacity to do critical thinking of your own about issues in political philosophy, and to develop a framework within which your thinking can take place. Another goal of thise course will be for you to develop the capacity to read political philosophy carefully and critically.

PHIL 408B — REALISM, REFERENCE, AND TRUTH (Dr. Stairs). For many years Hilary Putnam has been a staunch advocate of realism: the doctrine that what is true of the world is independent of what we can know and how we come to know. Recently, however, Putnam has abandoned this view, largely in response to arguments of Michael Dummett concerning the relationship between the theory of truth and the theory of knowledge. In this course we will give thorough consideration to these views of Putnam and Dummett and to the general issues which arise out of their writings. Since Putnam and Dummett are two of the most important philosophers writing today, students can expect to deal with a number of problems in contemporary philosophy. Prerequisite: Consent of instructor.

PHIL 408C — FREEDOM, ABILITY, RESPONSIBILITY (Dr. Greenspan). A discussion of philosophical issues surrounding the question of freedom of action: ability, free will *vs.* determinism, moral and legal responsibility. We shall extend to recent cases from law and psychology some standard philosophical debates from contemporary action theory, in an attempt to understand what it means to say that an agent's actions are out of his control. Sample topics for class discussion: coercion, psychological compulsion, *mens rea,* hypnosis. Prerequisite: One course in philosophy.

PHIL 453 — PHILOSOPHY OF SCIENCE II (Dr. Hausman). This course is a systematic examination of modern philosophy of science, particularly with regard to the natural sciences. Topics to be covered this semester are (1) scientific explanations: What is their structure? How important is explanation as a goal of science? (2) scientific theories: What is their structure? How are they related to observation? Are they true or false, or are they principally instruments which enable us to learn about and manipulate nature? (3) scientific method: What is the importance and the logic of experimentation in science? How are scientific theories and generalizations confirmed? How are new facts, laws, and theories discovered? (4) scientific progress: What is the nature of scientific revolution? Is science rational? (5) Philosophy of science: What can it teach us? How does it establish its claim? Prerequisite: PHIL 250, or an upper-division course in philosophy, or a major in science, or consent of instructor.

PHIL 457 — PHILOSOPHY OF HISTORY (Dr. Martin). The structure of historical knowledge and its relationships to the evidence on which it is based. Topics to be considered include: Historical Relativism (can history be objective?); Idealism (R. G. Collingwood and others) and the Methodological Autonomy of History; Historical Understanding *(verstehen);* Positivism (C. G. Hempel and others) and the logic of historical explanation; Relative Causal Importance. Theories about the meaning and direction of world history (Hegel, Marx, Spengler, Toynbee) will not be considered. No prior acquaintance with philosophy will be presupposed. History and social science majors are encouraged to enroll.

PHIL 458A — THE EVALUATION OF RESEARCH IN THE BEHAVIORAL SCIENCES (Dr. Suppe). An examination of competing approaches of social science to the investigation of behavioral phenomena. The approaches to be considered are those of anthropology, sociology, social psychology, behavioral psychology, biology, sociobiology, and psychiatry. A major emphasis will be on how to evaluate the adequacy of research from these various approaches, and how to assess the results of such research: what it does or what it is capable of establishing. Instead of proceeding on a purely abstract level, we will examine these issues by examining work done on deviant sexual behavior, an area of behavioral phenomena that has been explored from a variety of disciplines and approaches in the behavioral sciences. Prerequisite: PHIL 250 or consent of instructor.

PHIL 458B — THE PROBLEM OF REDUCTION IN THE PHYSICAL SCIENCES (Dr. Ehrlich). In this course we will review the current literature on the problem of reduction in the physical sciences. Our examples will come primarily from contemporary and historical theories of heat. We will investigate in some detail the relationship between thermodynamics on the one hand and kinetic theory and statistical mechanics on the other. We will also examine, more specifically, the relationship between the macroscopic and microscopic concepts of temperature. Problems concerning concept formation will also be discussed. For example, we will examine the relationship between such primitive notions as 'as hot as' and 'is hotter than', and the concepts of equal and higher temperature. Prerequisite: PHIL 250 or some background in physics.

NOTE: Further details about these and other philosophy courses are contained in the Philosophy Department Handbook, a copy of which may be obtained in 1131 Skinner.

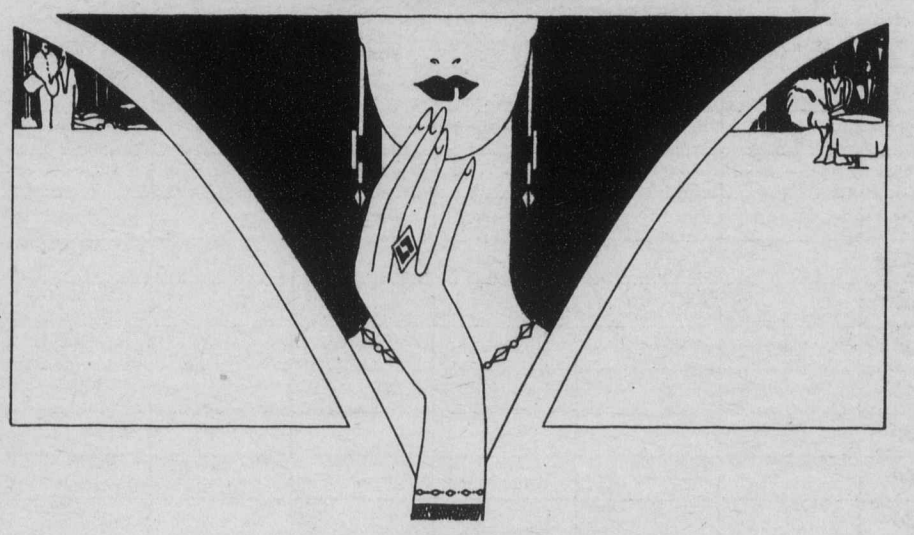
ARMAND'S



We never met a face that didn't love pizza. Especially the deep-dish glory you get at Armand's.

Extras from heaven—Italian sausage, pepperoni, fresh mushrooms, green pepper, Spanish onions, and/or anchovies.

Top secret spices. Smuggled across state lines by a trusted member of the Family.

So much cheese we almost changed our name to Armand's Chicago Cheeseria. Three—count 'em—three different kinds of cheese to please, baked to gooey perfection.

Plump plum tomato sauce like Mamma never used to make. (Why should she, when all she had to do was come to Armand's).

Our incomparable under-fare, the two-taste deep-dish crust: a thin layer of crunch protecting a bread-soft marvel inside.

The MBA™ financial calculator.

***Slimline* Business Analyst-II™ calculator.**

Choosing a powerful TI business/financial calculator could be one of your best decisions this semester.

Success in business comes from analyzing alternatives and making good decisions. Texas Instruments designed The MBA™ and the *Slimline* Business Analyst-II™ calculators to help professionals find fast, accurate answers to many of the same tough problems you're studying now... in finance, marketing, accounting, investments and statistics. Isn't that a great reason for buying one now?

The MBA. Preprogrammed financial and statistical functions, programmability and step-by-step applications guide.

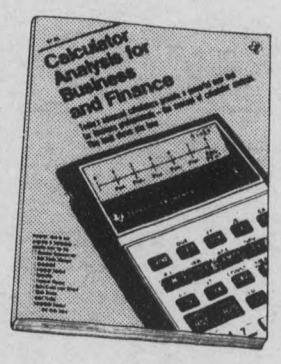
The MBA is designed specifically for financial applications. It's the most powerful handheld calculator in its class!

Preprogrammed functions make it easy to solve even complex financial problems at the touch of a few keys. The MBA computes net present value and internal rate of return for up to 12 variable cash flows. Solves the vast majority of time-value-of-money problems with keys for payment, present value, future value, number of periods and periodic interest rate. And calculates days between dates and direct solution of yield for bonds or mortgages.

The Official Computer and Calculator Supplier of the 1980 Olympic Winter Games

Built-in statistical functions provide the power required for data analysis and forecasting. And 32 steps of programmability add speed and accuracy to performing repetitive calculations. (Just change the variables in a program and you can see the result of a new alternative in seconds!)

Calculator Analysis for Business and Finance, a $7.95 value, is a 288-page guidebook included with The MBA that shows you how to analyze many business situations using proven techniques. More than 100 real-world examples are described step-by-step.



The MBA calculator and book with owner's manual, carrying case and ac adapter/battery charger, $70.00*.

Slimline Business Analyst-II. Sleek LCD calculator with versatile business capabilities.

Solving financial problems with the *Slimline* Business Analyst-II can make working with your old calculator seem like pencil-and-paper arithmetic. The functions required to perform many common business, financial and statistical calculations are built in to help you make quick, accurate evaluations of many complex business situations.

Special financial keys are used to handle time and money problems such as compound interest, annuity payments, mortgage loans, investment yields, amortization schedules and more.

Statistical and linear regression capabilities provide the power you'll need to boil down data and automatically handle problems such as sales and earnings forecasts.

Profit margin calculations concerning cost, selling price and margin can be performed rapidly when any two of the variables are known. Other features include a four-function data register with Constant Memory™ feature that retains its contents *even when the calculator is turned off*. Two miniature batteries provide up to two years of operation in normal use. And TI's APD™ automatic power down feature helps prevent accidental battery drain.

The Business Analyst-II, with detailed owner's manual and suede-look vinyl wallet, $45.00*.

You can start making good business decisions this semester. See The MBA and the *Slimline* Business Analyst-II at your college bookstore or other TI dealer today.

TI calculators are helping solve Olympic scoring problems.

Get a problem solver that's solving problems in the real world.

The more your courses approach the problems of the real world, the more you need a calculator that's already there.

These two programmable calculators from Texas Instruments can take you from your engineering courses right into the ranks of professionals like the ones who created the complex programs to simplify and speed up scoring at the Winter Olympics.

The TI Programmable 58C lets you spend your time learning concepts instead of working problems. $130*.

Perhaps your current calculator can solve advanced engineering problems, but you'll probably spend a lot of time doing it. With the TI-58C's 480 program steps or up to 60 memories, plus 170 keyboard functions and operations, you'll be amazed at just how much of the work the TI-58C will do for you.

The TI-58C has a Constant Memory™ feature that lets you lock a program in the machine — even when it's turned off. You can program the calculator as you learn in class and use it later to review the concept and work the problems. You can store results or data in the calculator, even if you turn it off, for later use.

The TI-58C will seem like more than a calculator — its computer-like capabilities let you design your own programs or use Texas Instruments unique plug-in Solid State Software™ modules with ready-to-use programs. A Master Library module (included with the calculator) has 25 basic programs in math, statistics, and other areas of general interest. Twelve optional library modules include programs on applied statistics, advanced mathematical routines, electrical engineering, business decisions, and much more.

With all of its capabilities and functions the TI-58C is simple to operate using TI's AOS™ algebraic operating system. The AOS entry system lets you enter problems the way they are written — from left to right — and handles up to 9 levels of parentheses in accordance with the rules of algebraic hierarchy.

With the TI-58C you'll also get a copy of *Personal Programming*, an owner's manual that'll help get you started in programming — even if you've never programmed before.

The TI Programmable 59 goes from engineering to the Winter Olympics. $300*.

The reason the Winter Olympics chose the TI-59 for verifying scoring results at many events is the same reason it can help you get all you can from your courses — versatility.

Up to 960 program steps or up to 100 memories plus 4 types of display testing, 10 user flags, 72 labels, and 6 levels of subroutines let the power of programming help you make short work of complex problems.

Even with all the 175 keyboard functions and operations at your command, the TI-59 responds to simple AOS algebraic entry system control. So the calculator becomes part of the solution — not part of the problem.

The TI-59 uses Texas Instruments Solid State Software modules and comes with the Master Library module. You also get the added versatility and capability of magnetic cards to record your own programs. With them you can also tie into programs on modules for extended programming routines.

You'll get a copy of *Personal Programming* with your new TI-59 that'll help you get all the power we put into it. And the book can start you programming even if you've never tried it before.

If you're starting on the way to a career in engineering get a calculator that'll help you get there. And get one that'll continue to serve you well on the job.

See the whole line of advanced Texas Instruments calculators at your college bookstore or at other TI dealers everywhere.

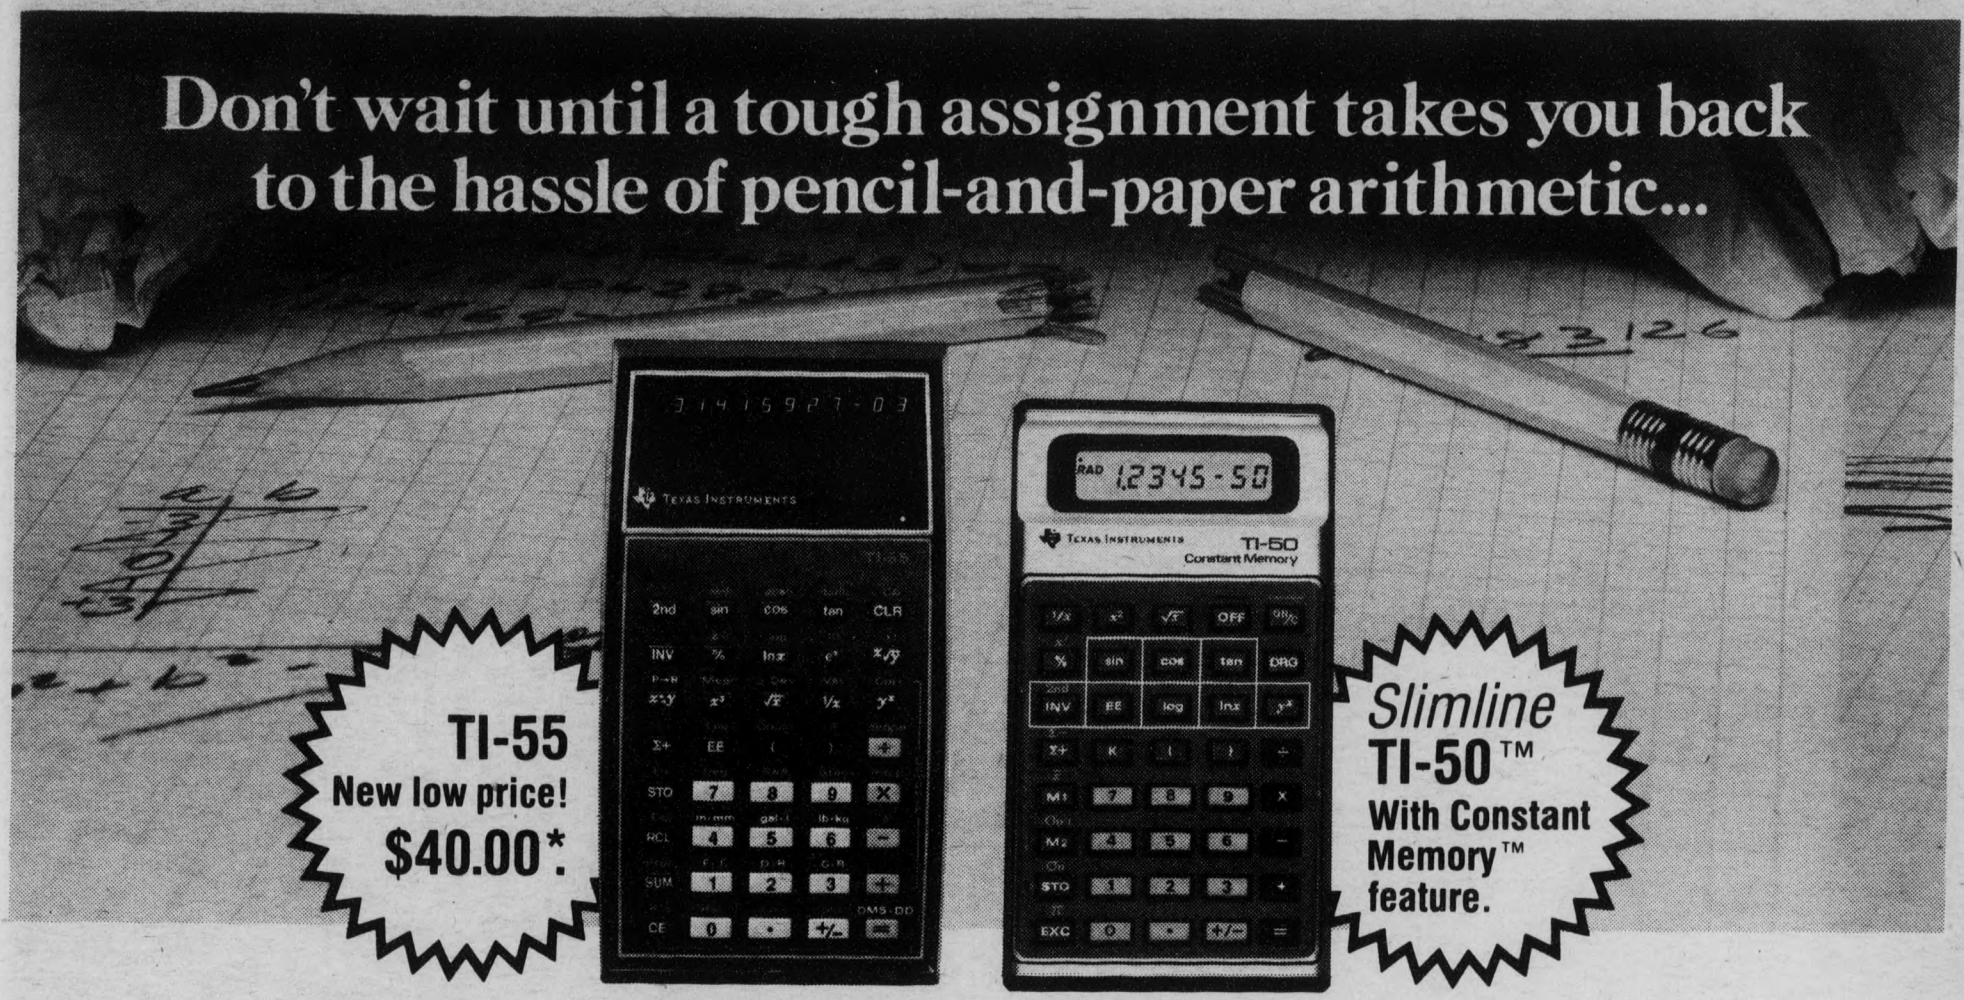
Don't wait until a tough assignment takes you back to the hassle of pencil-and-paper arithmetic...



Buy a powerful TI slide rule. For today...and tomorrow.

The key to buying the right calculator for college math is choosing one with all the power you need to handle the unexpected challenges — as well as the routine. These Texas Instruments slide rules provide both the power and the reliability you'll need to get through college and on into a career. Yet they're priced within a student's budget. That's the kind of value that has made the TI-55 and the *Slimline* TI-50™ so popular.

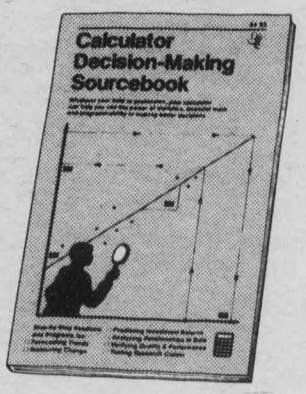
The TI-55. Power to handle the math and statistics you'll encounter in upper level and graduate courses.

The versatile TI-55 calculating system puts professional capabilities within reach of a student's budget. It provides the features needed to handle almost any mathematical operation, from logarithms and trigonometry to advanced statistical problems.

Thirty-two steps of programmability add impressive speed and accuracy to performing repetitive calculations and "what-if" analyses. Just teach the TI-55 a series of operations and key in the variables. The calculator does the work... *automatically!*

The Official Computer and Calculator Supplier of the 1980 Olympic Winter Games

For help in making quantitative decisions, the TI-55 includes the *Calculator Decision-Making Sourcebook*. This step-by-step guide, a $5.00 value, shows you how to put the power of statistics, financial math and programmability to work ... whatever your major ... with 140 pages of easy to understand, real-world applications.



Topics include analyzing relationships in data, verifying quality and performance, measuring change, forecasting trends and projecting returns. Its pages contain the basic keys to better decision-making you can use now and in the future.

The TI-55 and book with owner's manual, carrying case and ac adapter/battery charger are now available at a new, lower price. Only $40.00*.

The *Slimline* TI-50 packs 60 powerful functions into a handsome, compact package.

The pocket-portable *Slimline* TI-50 is a remarkably powerful liquid crystal display (LCD) calculator, yet it's as thin as a pencil and weighs only three ounces!

Its sixty versatile functions can help you handle a wide range of college math problems. Capabilities include common and natural logarithms. Six trigonometric operations that can be performed in three angular modes (degrees, radians or grads). Two constant memories that retain their contents *even when the calculator is turned off*. And more.

Seven built-in statistical functions simplify the task of boiling down large sets of data points so you can perform accurate analyses and draw reliable conclusions.

The power of the *Slimline* TI-50 is made easy to use by TI's AOS™ algebraic operating system, which provides 15 sets of parentheses and accepts up to four pending operations. That means you can enter most problems just as they're written, left to right.

Two miniature batteries provide up to two years of normal operation. And TI's APD™ automatic power down feature helps prevent accidental battery drain.

The *Slimline* TI-50 includes a detailed owner's manual and a durable vinyl wallet, still only $40.00*.

Be sure you have all the capability you need in a slide-rule calculator. See the TI-55 and the *Slimline* TI-50 at your college bookstore or other TI dealer today.

EARN OVER $650 A MONTH RIGHT THROUGH YOUR SENIOR YEAR.

If you're a junior or senior majoring in sciences like math, physics or engineering, the Navy has a program you should know about.

It's called the Nuclear Propulsion Officer Candidate-Collegiate Program (NUPOC-C for short) and if you qualify, you can earn as much as $650 a month right through your senior year. Then after 16 weeks of Officer Candidate School, you'll get an additional year of advanced technical education. This would cost thousands in a civilian school, but in the Navy, we pay you.

It isn't easy. There are fewer than 400 openings and only one of every six applicants will be selected. But if you make it, you'll have unequaled hands-on responsibility, a $24,000 salary in four years, and gilt-edged qualifications for jobs both in the Navy and out.

Ask your placement officer to set up an interview with a Navy representative when he visits the campus, or contact your Navy representative at 800-841-8000, or send in the coupon. The NUPOC-C Program. Not only can it help you complete college. It can be the start of an exciting career.

SANSUI SELECT SYSTEMS
Now it's easy to buy great hi-fi.

If you want sensational music and a great looking system with a minimum of fuss, the **Sansui Select System 70** is perfect for you. Because all the components have been perfectly pre-matched by our expert engineers.

The center of the system is our new DC-Servo **R-70 receiver**. It's so versatile you can listen to one music source while you're taping something else. And it's easy to use; LED displays help find your station and monitor both signal strength and output power. FM reception of even the weakest stations is superb.

You'll love the automatic direct drive **FR-D3 turntable** for its faithful tracking ability and convenient outside-the-cover controls. The Dolbyized **D-90 cassette deck**, with switchable bias and EQ to match standard and high performance tapes, can be connected to a timer to make recordings while you're away. The great Sansui 3-way acoustic suspension **SPA-3700 speaker systems** have awesome power and clarity over the entire frequency spectrum.

All the components, except the speakers, are mounted in a handsome cabinet with smoked glass doors and plenty of room for your records.

When your friends hear the great sound of your Sansui Select System, they'll wonder how you did it. Tell them it was easy – with a little help from another friend. Sansui.

Why just disturb your family when you can disturb the whole neighborhood?

Don't be selfish. Share the new Panasonic Silver Special AM/FM stereo cassette recorder (RX-5090) with all your neighbors.

Let them see the classy silver-toned cabinet with its 7-stage LED indicators. Then, turn it up and turn them on. To the powerful sound coming through the 2-way, 4-speaker system. On AM, on FM, on FM stereo, on cassette.

Record their response. The One-Touch Record button, Super Alloy head and two built-in condenser microphones make it easy. And if your neighbors are lost for words, hit the mechanical pause control. If they rant on and on, the Easy-Matic circuitry automatically adjusts recording levels. And Auto-Stop will shut off the recorder when the tape ends. A digital tape counter and Cue and Review make it easy to find any spot on any tape.

If the Silver Special is just too much for your neighbors to handle, it has a handle so you can take it with you. It doesn't matter where you go, the Panasonic Silver Special has universal voltage. But if you decide to stay, there are jacks for earphones, headphones and your neighbors' sanity. And there's also an optional car adapter (RP-917).

The new Panasonic Silver Special AM/FM stereo cassette recorder. It could wake up your neighbors to a whole new look in sound.

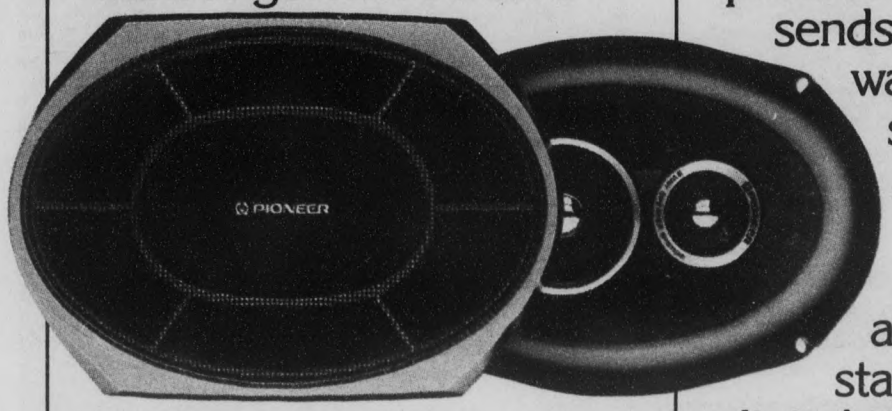
AM/FM Stereo Cassette Recorder

This Christmas, knock somebody on their ear.

The KE-5000 Digital Electronic AM/FM Stereo with Cassette Deck.

Let's face it. Nowadays, even people you love are pretty jaded. And if you want to get more than a



TS-695 Three-Way Speakers.

patronizing peck on the cheek come Christmas morning, you've got to put something dynamite under the tree.

Something like the new Pioneer KE-5000 AM/FM Stereo with Cassette Deck. If your car could do as much for itself as the KE-5000 can, you could drive to work with your arms folded.

Almost all once-mechanical functions are handled by a microprocessor that eliminates old time dial twisting. Instead, a press of the SCAN button sends it scurrying on its way, looking from station to station till it finds one you like.

The KE-5000 also features a ten-station memory, digital station display, Dolby*noise reduction, metal tape capability, and a digital clock.

Add to this a pair of our superb TS-695 three-way speakers, and you're giving a gift to contend with.

But your buck doesn't stop here. Right now your Pioneer Car Stereo dealer can show you dozens of dashing ways to snow someone you love this Christmas.

And if that someone you love happens to be someone you share a car with, well that makes giving Pioneer Car Stereo just that much better.

PIONEER®
